Auditors Report

NARRATIVE REPORT BY THE TREASURER

1. Introduction

The West Midlands Fire Service (WMFS) covers an area approaching 92,000 hectares (350 sq. miles) and provides a fire and rescue service to a population of approximately 3 million people living in a million dwellings. It covers the cities of Birmingham, Coventry and Wolverhampton and the Metropolitan Boroughs of Dudley, Sandwell, Solihull and Walsall.

WMFS is accountable to the public via the West Midlands Fire and Rescue Authority (WMFRA), made up of 15 Councillors representing the local authorities. They are also joined by West Midlands Police and Crime Commissioner and two co-opted Members. Headed by the Chair of the Fire Authority they set the direction for the Service in the best interests of the community. The Service is managed directly by four Brigade Managers – the Chief Fire Officer (CFO), Deputy CFO and two Assistant CFO's.

The Service's activities are governed by the Home Office and legislative responsibilities are set out in the Fire and Rescue Services Act 2004 and the Fire and Rescue National Framework for England.

WMFS works towards 'Making the West Midlands Safer, Stronger and Healthier'. The CFO together with the Strategic Enabling Team (SET) and Authority work towards achieving three priorities:

Prevention: Delivering interventions which support safer and healthier communities.

- We will prevent fires, road traffic collisions and other emergencies.
- We will focus on reducing health inequalities for our most vulnerable as a means of reducing risk and vulnerability to fires and other emergencies.
- We will educate the community to reduce their risk and vulnerability to fires and other emergencies.
- We will collaborate, and work in partnership with other organisations to reduce the risk and vulnerability to fires and other emergencies.

Protection: Protecting life and property to make businesses stronger and communities safer.

- We will protect you and your property by targeting high-risk buildings and vulnerable businesses.
- We will make our communities safer by implementing the learning from independent and sector-led reviews.
- We will improve community safety by developing innovative and smarter approaches to help keep your business in business.

- We will promote economic growth through the development of sustainable solutions and education to support businesses.
- We will reduce disruption to businesses and communities of the West Midlands.

Response: Dealing excellently with incidents.

- We will respond with the resources you need when you need them to protect what matters to you, to save life, reduce harm and protect homes and businesses.
- We will be ready to respond in an assertive, effective and safe way to meet our vision and your expectations.
- We will lead rescue operations, working with others to help make you safer.
- We are ready to respond locally, nationally and internationally.

Further information can be found on our website www.wmfs.net

2. This narrative report provides a brief explanation of the financial aspects of the Authority's activities and draws attention to the main characteristics of the Authority's financial position.
3. The Authority's accounts for the financial year 2021/2022 are set out on the following pages and consist of:
 - The Comprehensive Income and Expenditure Statement (CIES), the Authority's main revenue account, covering income and expenditure on all services.
 - The Movement in Reserves Statement (MIRS), which shows the movement in the year on the different reserves held by the Authority.
 - The Balance Sheet, which sets out the financial position of the Authority at 31st March 2022.
 - The Cash Flow Statement, showing movements in cash and cash equivalents during the year and the cash position at the year-end.
 - The Pension Fund Account, which summarises the movements relating to the firefighters pension schemes (FPS).

The accounts are supported by notes to the core financial statements.

4. The accounting policies adopted by the Authority comply with the relevant accounting standards except where indicated in notes to the accounts.
5. After statutory adjustments, such as the removal of depreciation and impairments and applying International Accounting Standard Nineteen (IAS19) entries in relation to pension costs, the CIES for the Authority shows a deficit on provision of services of £61.777m and an overall surplus of £42.131m.

6. The total expenditure of the Authority in 2021/22 was £177.589m. The types of costs incurred were:

7. The total income of the Authority to fund expenditure in 2021/22 was £115.812m, which came from:

8. In 2021/22 the Authority spent £3.189m on capital projects, the largest of these being £2.345m on vehicle replacements, £0.279m on health & safety adaption works and £0.185m on electrical rewires. The total expenditure on capital schemes was financed by Direct Revenue Financing. Note 33 provides details of capital expenditure and capital financing.
9. In 2021/22 appropriations of £7.101m were made from earmarked general fund reserves and £1.980m from un-earmarked general fund reserves.
10. The Authority, at its February 2021 meeting authorised the limit for external debt at £38m and the statutory limit for external debt at £42m. As at 31st March 2022, the Authority's actual long-term principal borrowing was £30.707m and short-term principal borrowing was £0.827m as per Note 18.3.
11. The 2021/22 accounts include the impact of IAS19. The effects of IAS19 are shown within the CIES and Balance Sheet. There is no effect on council tax from the implementation of this standard. The figures disclosed represent a snapshot in time. The accounts show that there is a significant shortfall between the forecast cost of pensions and the current level of assets built up in the pension fund. The Government Actuaries Department (GAD) review the defined benefit arrangements and appropriate levels of employer & employee contributions.

12. **Financial Outlook**

On 16 December 2021, the Secretary of State for the Department for Levelling Up, Housing and Communities (DLUHC) announced the provisional settlement for 2022/23 at £53.590m, resulting in a funding increase of £0.588m (1.1%). In addition, it was indicated A new 'one off' Services Grant would be distributed through the existing Settlement Funding Assessment formula amounting to approximately £2.3M for this Authority (additional national insurance contribution costs of approximately £650k are to be funded from this). The Government also proposed a general Council Tax referendum threshold of 2% for Fire and Rescue Authorities. However, for one year only (2022/23), for the Fire and Rescue Authorities in the lowest charging quartile, there would be flexibility to increase Band D precepts by £5. On 7 February 2022, DLUHC confirmed the Authority's 2022/23 total core funding.

The Authority set its 2022/23 budget on 14 February 2022, setting a council tax requirement of £49.405m which resulted in a council tax Band D precept increase of £4.99 (7.92%).

The Corporate Risk Register has identified a number of major risks that would seriously affect the Authority's ability to carry out its functions. The very nature of the risks have made it extremely difficult to quantify any funding impact that would arise were the risk to materialise and in the short term would result in a demand on the Authority's General Balances.

In addition, there are ongoing budget uncertainties, particularly Firefighter pension related issues, that have significant funding implications but at this stage still remain unclear in terms of ongoing cost and whether those costs will need to be found by Fire and Rescue Authorities and/or by Government funding.

Furthermore, the Service is likely to continue to be directly impacted to some degree by the effects of COVID during 2022/23 together with the linked requirement to invest in the health, safety and wellbeing of all staff.

Therefore, whilst the Government funding allocation in 2022/23 is marginally higher in cash terms compared to 2021/22, a high level of caution still needs to be applied to future financial years as the funding position remains volatile for the Fire sector.

The Business Rates Retention Scheme was introduced in April 2013 and provides a direct link between business rates growth and the amount of money local authorities have to spend on local people and services. In September 2019, the Secretary of State for DLUHC announced that the implementation of changes to local government funding including business rates retention had been postponed. Authorities were notified that in order to provide certainty and stability for 2020/21, there would be a delay to the introduction of the scheme until 2021/22, a year later than planned. These plans have subsequently been deferred again, until at least 2022/23. In November 2021, the Government's Communities Secretary announced that the 75% business rates retention approach would conflict with the Government's 'levelling up agenda' and that the Government would now look at the mechanism for redistributing funding to those Authorities most in need, effectively appearing to abandon plans to allow councils to retain 75% of their business rates.

The Government considered the need for a 'Fair Funding Review' a number of years ago. The outcome of such an exercise would affect how funding is allocated and redistributed between local authorities and was originally intended to determine the relative share received by each individual fire and rescue authority from the total fire service funding received from Central Government. It was originally proposed that the new arrangements would be introduced from 2021/22 but the introduction was subsequently deferred until at least 2022/23. It is now the Government's intention to undertake a Fair Funding Review across local authorities, although it is not now intended to include fire and rescue authorities directly within the process. The timescales, to achieve an appropriate outcome in time to affect finance settlements from 2023/24 onwards, are challenging. Whilst it is not intended for the fire sector to be directly part of the exercise, issues such as the scale of council tax revenue generated by individual local authorities could have an indirect impact on resource allocations within the fire sector and so this review adds another complexity and volatility to long term financial planning.

13. COVID-19 Government Grants

The Government has provided a range of financial support packages throughout the COVID-19 pandemic. Since March 2020 the Authority has received £7m COVID-19 Government Grants. This funding has covered the additional costs incurred as a result of the COVID-19 pandemic, to support the cost of services and offset other income losses.

14. **Public Service Pensions – Changes to the transitional arrangements to the 2015 schemes**

On 16 July 2020 Her Majesty's Treasury (HMT) published their Public service pension schemes consultation: changes to the transitional arrangements to the 2015 schemes. The consultation closed on 11th October 2020 and the Government's response was published on 4th February 2021.

The response proposes that scheme members with benefits in the legacy schemes, those that existed before 1st April 2015, should have the opportunity to have their benefits calculated as if their membership of those schemes had continued until 31st March 2022. From 1st April 2022 all employees were moved into the reformed pension scheme. In the case of firefighters this will be the 2015 FPS. The estimated pension obligations from this matter have been captured within the defined pension liability. The shortfall in employer contributions will be captured in future scheme valuations as an unfunded, past service deficit and reflected in the employer contribution rates going forward.

The situation regarding immediate detriment cases i.e. those staff affected by the introduction of the 2015 FPS, is still affected by a number of legal and financial uncertainties. As a result, this still represents another complexity to the Authority's pension and budgetary considerations.

On 7 December 2020, the Audit and Risk Committee, in its role as Scheme Manager for the FPS, took the decision to instruct the scheme administrator to act upon guidance issued by the Home Office in August 2020 to make payment to immediate detriment cases.

West Midlands Fire Service began making payment to affected members, who retired from service on or after 1 February 2021. Whilst payments were being made, there were still a number of outstanding technical questions being considered nationally.

In October 2021, the Local Government Association and the Fire Brigades' Union signed a Memorandum of Understanding which provided a more substantial framework for the processing of cases.

On 29 November 2021, the Home Office withdrew their guidance. The key reason for withdrawal of the guidance was uncertainty on the power of Section 61 of the Equalities Act 2010 to support correction of immediate detriment cases before the new legislation was in place, with specific reference to tax relief on the contributions that a member would need to make to reinstate their membership of the 1992 Pension scheme. They further felt that there was a significant risk to scheme members that Her Majesty's Revenue and Customs may reclaim any tax relief which had been given in this situation.

The withdrawal guidance quoted further concerns from HMT and the covering letter from the Home Office outlined the funding position and confirmed that services would not be provided with additional funding for costs associated with immediate detriment, which are paid outside of the pension account. This means that, were services to try and compensate members for lost tax or pension outside of the regulations, they would not be funded, and this would

come from operational budgets only.

At the Audit and Risk Committee meeting on the 6 December 2021, a verbal update was received, advising of the withdrawal of the Home Office guidance and the associated legal and financial issues this raised. As a result of this update, the decision was taken to pause the payment of immediate detriment cases.

There is no question that eligible members are entitled to receive a choice of legacy or reformed benefits for the period between 1 April 2015 and 31 March 2022, nor is there any doubt that this will be available. Section 2 of the Public Service Pensions and Judicial Offices Act 2022, which came into place in April 2022, has the effect that on the coming into force of the secondary regulations, which must be enacted by 1 October 2023, members will be reverted to their legacy schemes for the remedy period. Those who have retired before the coming into force of the secondary regulations will be treated as 'Immediate Choice' members under sections 6 to 9 of the Act 2022 and given a choice of benefits to receive.

Immediate detriment payments were being made by the Authority prior to 7 December 2021 based on the legal considerations leading up to that date alongside guidance for making payments provided by the Home Office. The removal of the Home Office guidance and the legal and financial risks and uncertainties associated with making payments prior to 1 October 2023 has resulted in changes to the basis of making immediate detriment payments, which requires appropriate consideration in terms of the ongoing arrangements relating to this matter.

The Public Service Pensions and Judicial Offices Bill has now received royal assent and has been made into an Act, The Public Service Pensions and Judicial Offices Act 2022. Part 1, Chapter 1 of the Act will come into force no later than 1 October 2023 and will remedy the discrimination between 1 April 2015 and 31 March 2022, by moving members back to the legacy scheme for the remedy period. The Act will be supported in due course by HMT directions which specify certain aspects such as the rate of interest to apply to payments owed and due.

Secondary regulation amendments to the Firefighters' Pension Schemes will be required that are in keeping with the primary legislation. It is the responsibility of Home Office to draft and lay these regulations by 1 October 2023. Section 11 of the Finance Act 2022 requires treasury to make changes to the Finance Act 2004, in connection with the discrimination rectification provisions. It is expected these will be retrospective from 1 April 2022, however they are not yet available, and drafts are expected in Autumn of 2022.

On 6 June 2022, the Audit and Risk Committee, in its role as Scheme Manager for the FPS, took the decision to instruct the scheme administrator to lift the current pause and process immediate detriment payments.

15. Performance Indicators (PI)

The Authority has an established Scrutiny Committee whose role is to scrutinise performance information including progress made against the 'The Plan'.

The setting of targets against operational and other performance indicators enables the Service to identify key areas for improvement which contribute to making the West Midlands safer, stronger and healthier. During 2021/22 the Scrutiny Committee received quarterly updates of the organisation's performance.

The five-minute attendance standard lies at the heart of the Service Delivery Model which shows how staff based mainly at fire stations deliver the three strategic objectives of prevention, protection and response.

A summary of the performance indicators for prevention, protection and response is provided below and further details of Authority's performance monitoring through the Scrutiny Committee can be found at <https://wmfs.cmis.uk.com/cmis5/>.

16. Further information about the accounts is available from:

Finance Manager,
 West Midlands Fire Service Headquarters,
 99 Vauxhall Road,
 Birmingham. B7 4HW.

Telephone : 0121-380-6920
 or E-Mail : kal.shoker@wmfs.net

17. Interested members of the public also have the right to inspect the accounts before the Audit is completed. The availability of the accounts for inspection is advertised on the Authority's website.

STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS

The Authority's Responsibilities

The Authority is required to:

- (i) make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Authority, that officer is the Treasurer.
- (ii) manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.
- (iii) approve the statement of accounts.

The Treasurer's Responsibilities

The Treasurer is responsible for the preparation of the Authority's statement of accounts in accordance with proper practices as set out in the C.I.P.F.A. / L.A.S.A.A.C. Code of Practice on Local Authority Accounting in the United Kingdom (the Code).

In preparing this statement of accounts, the Treasurer has:

- (i) selected suitable accounting policies and then applied them consistently
- (ii) made judgements and estimates that were reasonable and prudent
- (iii) complied with the local authority Code.

The Treasurer has also:

- (iv) kept proper accounting records which were up to date.
- (v) taken reasonable steps for the prevention and detection of fraud and other irregularities.

I certify that this statement of accounts gives a true and fair view of the financial position and expenditure and income of the WMFRA for the year ending 31 March 2022.

Mike Griffiths, C.P.F.A
Treasurer

Date: 20th March 2023

STATEMENT OF APPROVAL FOR THE STATEMENT OF ACCOUNTS

The statement of accounts for the year 1st April 2021 to 31st March 2022 was approved by the West Midlands Fire & Rescue Authority's Audit and Risk Committee on 20th March 2023.

Cllr Catherine Miks
Chair of the Audit and Risk Committee

Date: 20th March 2023

COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT

This shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with statutory requirements; this may be different from the accounting cost. The taxation position is shown in both the MIRS and the Expenditure Funding Analysis (EFA).

MOVEMENT IN RESERVES STATEMENT

This shows the movement in the year on the different reserves held by the Authority, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other 'unusable reserves'. The Statement shows how the movements in year of the Authority's reserves are broken down between gains and losses incurred in accordance with generally accepted accounting practices and the statutory amounts required to return to the amounts chargeable to council tax for the year. The Net Increase/Decrease line shows the statutory General Fund Balance movements in the year following those adjustments.

	Un-earmarked General Fund Reserves £000	Earmarked General Fund Reserves £000	General Fund Balance £000	Capital Receipts Reserve £000	Capital Grants Unapplied Account £000	Total Usable Reserves £000	Unusable Reserves £000	Total Authority Reserves £000

Balance at 31 March 2022	(3,858)	(29,816)	(33,674)	(2,249)	(74)	(35,997)	1,719,320	1,683,323

- * The total comprehensive income and expenditure is now shown as one line on the basis that the columnar analysis of the usable and unusable reserves automatically separates the movements between the surplus and deficit on the provision of services and other comprehensive income and expenditure.

BALANCE SHEET

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Authority. The net assets of the Authority (assets less liabilities) are matched by the reserves held by the Authority. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the Authority may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use. The second category of reserves is those that the Authority is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses, where amounts would only become available to provide services if the assets are sold and reserves that hold timing differences shown in the MIRS line 'Adjustments between accounting basis and funding basis under regulations'.

Mike Griffiths, C.P.F.A
Treasurer

Date: 20th March 2023

CASH FLOW STATEMENT

The Cash Flow Statement shows the changes in cash and cash equivalents of the Authority during the reporting period. The statement shows how the Authority generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Authority are funded by way of taxation and grant income or from the recipients of services provided by the Authority. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Authority's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Authority.

2020/2021 £000		2021/2022 £000
55,211	Net (surplus) or deficit on the provision of services	61,777
(51,108)	Adjustments to net surplus or deficit on the provision of services for non-cash movements (Note 24.2)	(63,782)
77	Adjustments for items included in the net surplus or deficit on the provision of services that are investing and financing activities (Note 24.3)	34
4,180	Net cash flows from Operating Activities	(1,971)
2,281	Investing Activities (Note 25)	3,581
2,022	Financing Activities (Note 26)	2,140
8,483	Net (increase)/decrease in cash and cash equivalents	3,750
45,097	Cash and cash equivalents at the beginning of the reporting period	36,614
36,614	Cash and cash equivalents at the end of the reporting period (Note 21)	32,864

NOTES TO THE CORE FINANCIAL STATEMENTS

1. ACCOUNTING POLICIES

1.1. General Principles

The Statement of Accounts summarises the Authority's transactions for the 2021/22 financial year and its position as at the year-end, 31 March 2022. The Authority is required to prepare an annual Statement of Accounts by the Accounts and Audit Regulations 2015, which require the Accounts to be prepared in accordance with proper accounting practices.

It has been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2021/22, supported by International Financial Reporting Standards (IFRS) and statutory guidance issued under the Local Government Act 2003.

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

The Statement of Accounts has been prepared on a going concern basis. The Treasurer expects that this will continue for the foreseeable future. Using reserves the Authority has a balanced budget for the Medium Term Financial Plan period and robust and deliverable plans for a balanced budget going forward.

1.2. Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from contracts with service recipients, whether for services or the provision of goods, is recognised when or as the goods or services are transferred to the service recipient in accordance with the performance obligations in the contract.
- Supplies are recorded as expenditure when they are consumed — where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as Income and Expenditure.

- Where income and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.
- Accruals of income and expenditure are subject to a de minimis level of £1,000.

1.3. Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in a specified period; no more than three months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Authority's cash management.

1.4. Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise because of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Authority's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

1.5. Charges to Revenue for Non-Current Assets

Services and support services are debited with the following amounts to record the cost of holding non-current assets during the year:

- Depreciation attributable to the assets used by the relevant service.
- Revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off.
- Amortisation of intangible assets attributable to the service.

The Authority is not required to raise council tax to fund depreciation, revaluation and impairment losses or amortisation. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement equal to an amount calculated on a prudent basis determined by the Authority in accordance with statutory guidance within England.

Depreciation, revaluation and impairment losses and amortisation are therefore replaced by the contribution in the General Fund Balance, by way of an adjusting Minimum Revenue Provision (MRP) transaction with the Capital Adjustment Account in the MIRS for the difference between the two.

1.6. Council Tax and Non-domestic Rates (NDR)

Billing authorities act as agents, collecting council tax and NDR on behalf of the major preceptors. Under the legislative framework for the Collection Fund, billing authorities, major preceptors and central government share proportionately the risks and rewards that the amount of council tax and NDR collected could be less or more than predicted.

The council tax and NDR included in the CIES is the Authority's share of accrued income for the year. Regulations determine the amount of council tax and NDR that must be included in the Authority's General Fund. The difference between the income included in the CIES and the amount required by regulation to be credited to the General Fund is taken to the Collection Fund Adjustment Account and included as a reconciling item in the MIRS. The effect on the Surplus or Deficit on the Provision of Services for the year 2021/22 in the CIES is a surplus of £3.986m which is also reflected in the MIRS.

The Balance Sheet includes the Authority's share of the year end balances in respect of council tax and NDR relating to arrears, impairment allowances for doubtful debts, overpayments and prepayments and appeals.

Where debtor balances for the above are identified as impaired because of a likelihood arising from a past event that payments due under the statutory arrangements will not be made (fixed or determinable payments), the asset is written down and a charge made to the Collection Fund. The impairment loss is measured as the difference between the carrying amount and the revised future cash flows.

1.7. Employee Benefits

1.7.1 Benefits Payable during Employment

Short-term employee benefits are those due to be settled within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which employees render service to the Authority. An accrual is made for the cost of holiday entitlements (or any form of leave, e.g. time off in lieu) earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the wage and salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to Surplus or Deficit on the Provision of Services but then reversed out through the MIRS so that holiday entitlements are charged to revenue in the financial year in which the holiday absence occurs.

1.7.2 Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Authority to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy in exchange for those benefits and are charged on an accruals basis to the appropriate service segment or, where applicable, to a corporate service segment at the earlier of when the Authority can no longer withdraw the offer of those benefits or when the Authority recognises costs for a restructuring.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Authority to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the MIRS, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

1.7.3 Post-Employment Benefits

Employees of the Authority are members of four separate pension schemes:

- Uniformed Firefighters – Original (1992) Scheme

This is an unfunded scheme, which is administered by the Authority in accordance with Government regulations. For such schemes, as there are no investment assets, IAS19 requires recognition of the liability and pension reserve in the Balance Sheet and transactions in the CIES for movements in the liability and reserve. The pension costs that are charged to the Authority's accounts in respect of these employees are equal to the contributions paid to the pension fund for these employees. The scheme was only open to those firefighters in the scheme as at 31st March 2006 and the employer's contribution is higher than for the new FPS. All contributions are made into a pension fund and equally the payments to pensioners are paid out of the same fund. This is then balanced by a contribution to or from the fund by the Government each year.

- Uniformed Firefighters – (2006) Scheme

On 1st April 2006 a new FPS was established for new firefighters, retained firefighters and for uniformed employees carrying out operational duties in the old pension scheme who wished to transfer to the new scheme. This scheme is an unfunded scheme and operates in the same way as the old scheme except for the reduced level of contribution from employees and employers which reflects the different conditions and benefits of the new scheme. All contributions are made into a pension fund and equally the payments to pensioners are paid out of the same fund. This is then balanced by a contribution to or from the fund by the Government each year.

On 1st April 2015 a new modified section was established for employees who were employed as retained firefighters between 1st April 2000 and 5th April 2006.

- Uniformed Firefighters – (2015) Scheme

On 1st April 2015 a new FPS was established. This scheme is a career average revalued earnings scheme for members starting after the 1st April 2015. Members of the 1992 and 2006 final salary schemes moved into this scheme, unless protection applied. This scheme is an unfunded scheme. All contributions are made into a pension fund and equally the payments to pensioners are paid out of the same fund. This is then balanced by a contribution to or from the fund by the Government each year.

The combined pension fund for uniformed firefighters as at 31st March 2022 had a net deficit value of £1,791m.

- The Local Government Pension Scheme (LGPS)

Other employees, subject to certain qualifying criteria, are eligible to join the LGPS, administered by City of Wolverhampton Council. The pension costs that are charged to the Authority's accounts, £2.802m in 2021/22 in respect of these employees, are equal to the contributions paid to the funded pension scheme for these employees. Further costs arise in respect of certain pensions paid to retired employees on an unfunded basis. The scheme is, however, funded.

These schemes provide defined benefits to members (retirement lump sums and pensions), which are earned as employees work for the Authority.

These schemes are accounted for as defined benefits schemes:

- The liabilities of the West Midlands Metropolitan Authorities Pension Fund (WMMAPF) and the liabilities of the FPS attributable to the Authority are included in the Balance Sheet on an actuarial basis using the projected unit method — i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc. and estimates of projected earnings for current employees.
- Liabilities are discounted to their value at current prices, using a discount rate of 2.65% for the FPS and 2.7% for the LGPS.
- The assets of WMMAPF attributable to the Authority are included in the Balance Sheet at their fair value:
 - quoted securities — current bid price
 - unquoted securities — professional estimate
 - unitised securities — current bid price
 - property — market value.

- The change in the net pensions liability is analysed into the following components:
 - Service cost comprising:
 - Current service cost - the increase in liabilities because of years of service earned this year — allocated in the CIES to the services for which the employees worked.
 - Past service cost — the increase in liabilities because of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years — debited to the Surplus or Deficit on the Provision of Services in the CIES within the corporate charges Service line.
 - Net interest on the net defined benefit liability (asset), i.e. net interest expense for the Authority — the change during the period in the net defined benefit liability (asset) that arises from the passage of time charged to the Financing and Investment Income and Expenditure line of the CIES – this is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability (asset) at the beginning of the period – taking into account any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payments.
 - Remeasurements comprising:
 - The return on plan assets — excluding amounts included in net interest on the net defined benefit liability (asset) – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
 - Changes in demographic and financial assumptions — changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions — charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
 - Contributions paid to the Pension Fund — cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Authority to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the MIRS, this means that there are transfers to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits based on cash flows rather than as benefits are earned by employees.

The top up grant is accounted for as a remeasurement of the net defined benefit liability.

1.7.4 Discretionary Benefits

The Authority also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise because of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the LGPS.

1.8. Events after the Reporting Period

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- Those that provide evidence of conditions that existed at the end of the reporting period — the Statement of Accounts is adjusted to reflect such events.
- Those that are indicative of conditions that arose after the reporting period — the Statement of Accounts is not adjusted to reflect such events but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

1.9. Financial Instruments

1.9.1 Financial Liabilities

The Authority has its own portfolio of loans payable directly to the Public Works Loan Board (PWLB); these are initially measured at fair value and carried at their amortised cost except for Other Local Authority debt inherited from the former West Midlands County Council (WMCC) which is held at historic cost. Annual charges are made to the CIES based on the carrying value of the liability multiplied by the effective rate of interest for the instrument.

Debt inherited from the former WMCC is managed by Dudley MBC and redeemed over a period of 40 years from 1st April 1986. Annual charges to the CIES for interest payable were charged on this debt in 2021/22 at a rate of 5.4%.

Creditors are carried on the balance sheet at amortised cost.

1.9.2 Financial Assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cashflow characteristics. There are three main classes of financial assets measured at:

- Amortised cost
- Fair value through profit or loss, and
- Fair value through other comprehensive income

The authority's business model is to hold investments to collect contractual cash flows. Financial assets are therefore classified as amortised cost, except for those whose contractual payments are not solely payment of principal and interest i.e. where the cash flows do not take the form of a basic debt instrument.

Financial assets measured at amortised cost are recognised on the Balance Sheet when the authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost.

Debtors are carried on the balance sheet at amortised cost.

Any gains and losses that arise on the derecognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the CIES.

1.9.3 Fair Value Measurement

IFRS 13 requires that local authorities measure some of their non-financial and some of their financial instruments at fair value.

The objective of the fair value approach is to estimate the price at which an orderly transaction to sell an asset or transfer a liability would take place between market participants at the measurement date. The measurement assumes that the transaction takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, the most advantageous market.

The Authority measures fair value using the same assumptions that market participants would use when pricing an asset or liability assuming that they will act in their own economic best interest.

For non-financial assets the Authority considers the participant's ability to generate economic benefits by using the asset in its highest and best use.

When determining fair value the Authority's valuers use techniques that are appropriate in the circumstances and for which sufficient data is available maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

These inputs are categorised within the fair value hierarchy as follows:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the authority can assess at the measurement date.
- Level 2 – inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 – unobservable inputs for the asset or liability.

1.10. Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Authority when there is reasonable assurance that:

- the Authority will comply with the conditions attached to the payments, and
- the grants or contributions will be received.

Amounts recognised as due to the Authority are not credited to the CIES until conditions attached to the grant or contribution has been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset in the form of the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as Receipts in Advance. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income (non-ringfenced revenue grants and all capital grants) in the CIES.

Where capital grants are credited to the CIES, they are reversed out of the General Fund Balance in the MIRS. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital Expenditure.

1.11. Intangible Assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Authority as a result of past events (e.g. software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Authority.

Internally generated assets are capitalised where it is demonstrable that the project is technically feasible and is intended to be completed (with adequate resources being available) and the Authority will be able to generate future economic benefits or deliver service potential by being able to sell or use the asset. Expenditure is capitalised where it can be measured reliably as attributable to the asset and is restricted to that incurred during the development phase (research expenditure cannot be capitalised).

Expenditure on the development of websites is not capitalised if the website is solely or primarily intended to promote or advertise the Authority's goods or services.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of the assets held by the Authority can be determined by reference to an active market. In practice, no intangible asset held by the Authority meets this criterion, and they are therefore carried at amortised cost. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired — any losses recognised are posted to the

relevant service line(s) in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

Software licences are depreciated on a straight line basis over a period of five years.

1.12. Inventories

Inventories are included in the Balance Sheet at the latest price. This does not comply with the standard which requires the lower of cost and net realisable value. The total value of stocks held is approximately £0.933m (2020/21 £0.983m) and therefore any difference in accounting treatment will not materially affect the reasonableness of the figures disclosed within the accounts.

1.13. Overheads and Support Services

The costs of overheads and support services are charged to service segments in accordance with the Authority's arrangements for accountability and financial performance.

The costs of support services provided to the Authority by Sandwell MBC have been recharged in accordance with Service Level Agreements. These specify the level of service to be provided and the charge.

1.14. Property, Vehicles, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as property, vehicles, plant and equipment.

1.14.1 Recognition

Expenditure on the acquisition, creation or enhancement of property, vehicles, plant and equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Authority and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged as an expense when it is incurred.

Expenditure along with associated grant income on non-current assets are capitalised subject to a de minimis level of £10,000.

1.14.2 Measurement

Assets are initially measured at cost, comprising:

- The purchase price.
- Any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.
- The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

The Authority does not capitalise borrowing costs incurred whilst assets are under construction.

The cost of assets acquired other than by purchase is deemed to be its fair value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows of the Authority). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Authority.

Donated assets are measured initially at fair value. The difference between fair value and any consideration paid is credited to the Taxation and Non-Specific Grant Income line of the CIES, unless the donation has been made conditionally. Until conditions are satisfied, the gain is held in the Donated Assets Account. Where gains are credited to the CIES, they are reversed out of the General Fund Balance to the Capital Adjustment Account in the MIRS.

Assets are then carried in the Balance Sheet using the following measurement bases:

- Infrastructure, community assets and assets under construction — held at historical cost.
- Residential Homes — the current value measurement base is fair value, estimated at highest and best use from a market participant's perspective. The Authority no longer provides residential homes to new tenants and any properties which become or are vacant, are held as surplus assets.
- All other assets — current value, determined on the basis of market value.

Where there is no market-based evidence of current value because of the specialist nature of an asset, depreciated replacement cost is used as an estimate of current value.

Where non-property assets that have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for current value.

Assets included in the Balance Sheet at current value are revalued annually to ensure that their carrying amount is not materially different from their current value at the year-end, but as a minimum every five years. If an event occurs, such as a dramatic fall in land and property prices, which mean the current values are no longer appropriate, the assets will be revalued again. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains.

Where decreases in value are identified, they are accounted for by:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains).
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the corporate charges service line in the CIES.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

1.14.3 Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for as follows:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains).
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the corporate charges service line in the CIES.

Where an impairment loss is reversed subsequently, the reversal is credited to the corporate charges service line in the CIES, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

1.14.4 Depreciation

Depreciation is provided for on all property, vehicles, plant and equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land) and assets that are not yet available for use (i.e. assets under construction).

The following depreciation policies have been adopted:

- Operational Vehicles - straight line over 10 years.
- Ancillary Vehicles - straight line over 5 years.
- Equipment - straight line over 5 years.
- All property assets have been depreciated in line with their life expectancies.
- Freehold land is not depreciated.
- No depreciation is accounted for in the year of acquisition but is accounted for in the year of disposal.

Wilks Head & Eve (WH&E), of 55 New Oxford Street, London, WC1A 1BS is a RICS (Royal Institution of Chartered Surveyors) Regulated Firm, are the Authority's valuers and were instructed to provide valuations for all land and property assets and recommend the appropriate life expectancies. A full valuation of all land and property assets was completed as at 31st March 2022. The Code requires that land and property assets must be revalued every five years as a minimum but must be revalued more regularly where a five year valuation is insufficient to keep pace with material changes in fair value.

WHE also provide valuations for splitting land and building assets into individual components. Where an asset has major components whose cost is significant in relation to the total cost of the item and which have differing estimated useful lives, these components are depreciated separately. The Authority has adopted this as the basis for depreciation from 1st April 2011.

Where an asset it is deemed to be material for component accounting purposes, i.e. valued in excess of £1m, the following individual components have been identified:

- Main structure
- Roof
- Heating and associated systems
- Tower and associated functions
- Electrical
- Lift
- External

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

1.14.5 Non-Current Assets Held for Sale

A non-current asset is classified as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continued use. The following criteria must be met before an asset can be classified as held for sale under this section of the Code:

- The asset must be available for immediate sale in its present condition.
- The sale must be highly probable; with an active programme to dispose of the asset.
- The asset must be actively marketed for sale at a price that is reasonable in relation to its current fair value
- The sale should be expected to complete within one year of the date of classification.

Assets Held for Sale are valued at the lower of their carrying amount and fair value (market value) less costs to sell at initial reclassification and at the end of each reporting date and are not subject to depreciation. Investment Properties that are to be disposed of are not reclassified as an Asset Held for Sale and remain as Investment Properties until disposed of, reclassified to short term investment properties where they are expected to be disposed of within a year of the balance sheet date.

1.15. Minimum Revenue Provision

Under the Local Government Act 2003, the Authority is required to set aside an amount from revenue as a provision for debt repayment. This amount is known as the MRP.

The calculation is based on Asset Life Method, which is to make a provision over the estimated life of the asset for which borrowing was undertaken.

From 2015/16 onwards the proposed MRP policy was amended to an Annuity base.

The Treasurer has the discretion to make an additional provision.

1.16. Provisions and Contingent Liabilities

1.16.1 Provisions

Provisions are made where an event has taken place that gives the Authority a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential and a reliable estimate can be made of the amount of the obligation.

Provisions are charged as an expense to the appropriate service line in the CIES in the year that the Authority becomes aware of the obligation and are measured at the best estimate at the Balance Sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties. When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year — where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Authority settles the obligation.

1.16.2 Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Authority a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Authority. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

1.17. Reserves

The Authority sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by transferring amounts out of the Un-earmarked General Fund Balance in the MIRS. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the CIES. The reserve is then transferred back into the Un-earmarked General Fund Balance in the MIRS so that there is no net charge against council tax for the expenditure.

Certain reserves are kept to manage the accounting processes for non-current assets, local taxation, retirement and employee benefits and do not represent usable resources for the Authority — these reserves are explained in the relevant policies.

1.18. Value Added Tax (VAT)

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

1.19. Restated Figures

For comparative purposes 2020/2021 figures are provided.

The CIES cost of services, notes 7, 8 and 11 show 2020/2021 restated figures for service expenditure and income as some sections have moved service areas.

1.20. Roundings

Unless otherwise stated, the figures that follow have been rounded to the nearest £'000.

2. ACCOUNTING STANDARDS THAT HAVE BEEN ISSUED BUT HAVE NOT YET BEEN ADOPTED

The Code requires the disclosure of information relating to the impact of an accounting change that will be required by a new standard that has been issued but not yet adopted by the Authority.

The standards introduced in the 2022/23 Code that are relevant to the above are:-

- Annual Improvements to IFRS Standards 2018–2020. The annual IFRS improvement programme notes 4 changed standards:
 - IFRS 1 (First-time adoption) – amendment relates to foreign operations of acquired subsidiaries transitioning to IFRS
 - IAS 37 (Onerous contracts) – clarifies the intention of the standard
 - IFRS 16 (Leases) – amendment removes a misleading example that is not referenced in the Code material
 - IAS 41 (Agriculture) – one of a small number of IFRSs that are only expected to apply to local authorities in limited circumstances.
- Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16).

The Code requires implementation from 1 April 2022 and there is therefore no impact on the 2021/22 Statement of Accounts.

The Authority has concluded that there will be no material impact upon the 2022/23 Statement of Accounts.

IFRS 16 Leases – This will require lessees to recognise most leases on their balance sheet as right of use assets with corresponding lease liabilities (there is recognition for low value and short-term leases). The Chartered Institute of Public Finance and Accountancy (CIPFA)/Local Authority (Scotland) Accounts Advisory Committee Local Authority Accounting Code Board has agreed to defer the implementation of IFRS 16 Leases to 1st April 2024, however the Authority is allowed to adopt the standard before that date. The Authority chooses not to adopt the standard early and therefore this will not have any impact in 2022/23.

3. CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

In applying the accounting policies set out in the Accounts, the Authority has had to make certain judgments about complex transactions or those involving uncertainty about future events. The critical judgments made in the Statement of Accounts are:-

- **No Residual Value of Assets** – The Authority assumes that the residual value of plant and equipment will be nil when they are de-commissioned, as the assets are held to provide a service rather than for resale at the end of their useful life. The Authority has determined that the amounts received when assets are decommissioned are negligible and depend on the market demand for the assets at time of disposal.
- **Property valued at Current Value** – The Authority has had all its land and property assets valued on the basis of current value as at 31st March 2022. The Code requires that land and property assets must be revalued every five years as a minimum but must be revalued more regularly where a five year valuation is insufficient to keep pace with material changes in fair value. In 2011 the Authority introduced component accounting to its land and property assets as part of its valuations.
- **Government Funding** - There remains a degree of uncertainty about future levels of core funding for local government. The funding settlement for 2022/2023 is a one year only arrangement. There is no clarity over funding levels, nationally and/or locally, after that date which hampers meaningful financial planning over the longer term. The Authority has however determined that the level of uncertainty is not yet sufficient to indicate that the assets of the Authority may be significantly impaired because of a need to close facilities and reduce levels of service provision.

4. ASSUMPTIONS MADE ABOUT THE FUTURE AND OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY

The Statement of Accounts contains estimated figures that are based on assumptions made by the Authority about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Authority's Balance Sheet at 31st March 2022 for which there is a risk of a material adjustment in the following financial year are:

- Pensions Liability - Estimation of the net liability to pay pensions depends on several complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes to retirement age, mortality rates and expected return on pension fund assets. The Government Actuary's Department (GAD) and Hymans Robertson provide the Authority with expert advice about the assumptions to be applied (Note 34).

The effect of the net pensions' liability of changes in individual assumptions can be measured. For instance, all other factors remaining equal, a 0.5% decrease in the discount rate assumption on the Fire fighters Pension would result in an increase in the pensions liability of £161m, similarly a 0.1% decrease would impact the LGPS by £3.5m.

- Property, Plant and Equipment – The Authority's assets are depreciated over the useful life assigned by the external valuer. Assumptions are made about the level of repairs and maintenance which could affect the useful lives assigned to assets.

If the useful life of assets is reduced, depreciation would increase and the carry amount of the assets would fall. It is estimated that based on the current carrying value of depreciated assets of £121m at 31st March 2022 the annual depreciation charge for property, plant & equipment assets would increase by approx. £0.5m for every year that the useful life had been reduced. However, the assets are revalued annually and the asset lives are kept under regular review.

5. MATERIAL ITEMS OF INCOME AND EXPENDITURE

5.1 WMMAPF – Employer Pension Contributions 2020/21 to 2022/23

On 30 April 2020 the Authority made a payment of £7.9m to the WMMAPF in respect of pension contributions for the three years from 1st April 2020 to 31st March 2023. The full payment has been accounted for as a reduction in the Authority's net pension liability and accounting regulations require that only the amount due in relation to 2021/22 of £2.6m is recognised as a cost to the General Fund this year. Until 2022/23, there will be a difference between the net pension liability and the pension reserve, equal to the amount that has been paid in relation to future years. This difference will remain until the 2022/23 accounts.

6. EVENTS AFTER THE REPORTING PERIOD

6.1 FPS Immediate Detriment Payments

On 6 June 2022, the Audit and Risk Committee, in its role as Scheme Manager for the FPS, took the decision to instruct the scheme administrator to lift the current pause and process immediate detriment payments.

The Authority has 37 pensioners who are affected by this situation, and it is predicted that approximately a further 100 members will retire before the new regulations are in place. 30 of the 37 pensioners retired by 31 March 2022 and the net cost to the Pension Fund account at 31 March 2022 is £252k.

An exercise has been undertaken to forecast the potential scale of the financial risk by proceeding with remedy prior to legislation being in place and/or further clarity being provided in relation to potential arrangements prior to October 2023. The scale of impact has been estimated at circa £2m based predominantly on the tax related issues associated with pension contributions but it must be highlighted that there are significant legal and financial uncertainties relating to this matter and so a high degree of caution should be applied to this indicative figure. It is feasible that making payments with no clear legal mechanism in place together with the associated tax issues that could arise in advance of retrospective legislation may mean the scale of potential financial risk significantly exceeds the £2m figure, given all the uncertainties around this matter and the range of assumptions that can be used to calculate the scale of potential financial exposure. As at 31 March 2022 an earmarked reserve of £2m has been provided for this.

7. EXPENDITURE AND FUNDING ANALYSIS

This shows how annual expenditure is used and funded from resources (government grants, council tax and business rates) by the Authority in comparison with those resources consumed or earned by the Authority in accordance with generally accepted accounting practices. It also shows how this expenditure is allocated for decision making purposes between the Authority's services. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the CIES.

7.2 Adjustments for capital purposes

This column adds in depreciation and impairment and revaluation gains and losses in the corporate charges services line, and within other income and expenditure:

- Other operating expenditure – adjusts for capital disposals with a transfer of income on disposal of assets and the amounts written off for those assets.
- Financing and investment income and expenditure – the statutory charges for capital financing i.e. MRP and other revenue contributions are deducted from other income and expenditure as these are not chargeable under generally accepted accounting practices.
- Taxation and non-specific grant income and expenditure – capital grants are adjusted for income not chargeable under generally accepted accounting practices. The taxation and non-specific grant income line is credited with capital grants receivable in the year without conditions or for which conditions were satisfied in the year.

7.3 Net change for the pension adjustments

Net change for the removal of pension contributions and the addition of IAS19 Employee Benefits pension related expenditure and income:

- For services this represents the removal of the employer pension contributions made by the Authority as allowed by statute and the replacement with current service costs and past service costs.
- For financing and investment income and expenditure – the net interest on the defined benefit liability is charged to the CIES.

7.4 Other statutory differences

Other statutory differences between amounts debited/credited to the CIES and amounts payable/receivable to be recognised under statute:

- For services this represents the impact of accruals for accumulating compensated absences.
- The adjustment under other income and expenditure for taxation and non-specific grant income represents the difference between what is chargeable under statutory regulations for council tax and non-domestic rates that was projected to be received at the start of the year and the income recognised under generally accepted accounting practices in the Code. This is a timing difference as any difference will be brought forward in future Surpluses or Deficits on the Collection Fund.

8. PRIOR PERIOD RESTATEMENTS

Prior Period Restatement of Service Expenditure and Income

The Code requires that the Authority shows its expenditure and income on a service basis. During the year some sections have moved service areas. This note sets out how the net expenditure and income has been restated.

Service	As reported CIES 2020/21 £000	Adjustments £000	2020/21 Restated £000	Service

9. EXPENDITURE AND INCOME ANALYSED BY NATURE

9.1 The Authority's expenditure and income is analysed as follows:

2020/2021 £000		2021/2022 £000
	Expenditure	
115,087	Employee expenses	120,541
15,196	Other services expenses	16,920
264	Depreciation, amortisation and impairment	858
37,988	Pensions interest cost and expected return on pension assets	37,249
1,830	Interest payments	1,681
350	Other operating expenditure	340
170,715	Total Expenditure	177,589
	Income	
(3,727)	Fees, charges and other service income	(4,289)
(118)	Interest and investment income	(73)
(43,516)	Council tax income	(45,902)
(5,099)	Non-domestic rates income from West Midlands Local Authorities	(8,171)
(62,956)	Government grants and contributions	(57,343)
(88)	Disposal of non-current assets	(34)
(115,504)	Total Income	(115,812)
55,211	(Surplus)/Deficit on the provision of services	61,777

9.2 Revenue from contracts with service recipients

The Authority recognises revenue from contracts with service recipients in accordance with the provisions of IFRS 15 Revenue from Contracts with Customers as reflected in the Code of Practice. Revenue is recognised in the financial year that services are provided in accordance with the performance obligations of the contract.

Amounts included in the CIES for contracts with service recipients:

	2020/2021 £000	2021/2022 £000
Revenue from contracts with service recipients:		
Service Delivery – provision of Fire Control	1,042	1,036
Total included in CIES	1,042	1,036

Amounts included in the Balance Sheet for contracts with service recipients:

	2020/2021 £000	2021/2022 £000
Receivables included in short term debtors	(26)	-
Payables included in short term creditors	-	-
Total Included in Net Assets	(26)	-

The value of revenue that is expected to be recognised in the future related to performance obligations that are unsatisfied at the end of the year is:

	2020/2021 £000	2021/2022 £000
Not Later than one year	1,036	1,099
Later than one year	1,059	1,132
Amounts of transaction price fully unsatisfied	2,095	2,231

Revenue relates to the recovery of 30% of the total running costs of the Fire Control function. The performance obligations of the contract are met when the services are rendered. An invoice is raised for a fixed amount each month for the service in the month that the service is provided and adjusted at year end for variations.

10. ADJUSTMENTS BETWEEN ACCOUNTING BASIS AND FUNDING BASIS UNDER REGULATIONS

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Authority in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Authority to meet future capital and revenue expenditure.

The following sets out a description of the reserves that the adjustments are made against.

General Fund Balance

The General Fund is the statutory fund into which all the receipts of an authority are required to be paid and out of which all liabilities of the authority are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the General Fund Balance, which is not necessarily in accordance with proper accounting practice. The General Fund Balance therefore summarises the resources that the Authority is statutorily empowered to spend on its services or on capital investment (or the deficit of resources that the Authority is required to recover) at the end of the financial year.

Capital Receipts Reserve

The Capital Receipts Reserve holds the proceeds from the disposal of land or other assets, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for these purposes at the year-end.

Capital Grants Unapplied

The Capital Grants Unapplied Account (Reserve) holds the grants and contributions received towards capital projects for which the Authority has met the conditions that would otherwise require repayment of the monies but which have yet to be applied to meet expenditure. The balance is restricted by grant terms as to the capital expenditure against which it can be applied and/or the financial year in which this can take place.

2020/2021	Usable Reserves		
	General Fund Balance	Capital Receipts Reserve	Capital Grants Unapplied
Adjustments to Revenue Resources	£000	£000	£000
Amounts by which income and expenditure included in the CIES are different from revenue for the year calculated in accordance with statutory requirements:			
Pension costs transferred to/(from) the Pensions Reserve	(58,192)	-	-
Council tax and NDR transfers to/(from) Collection Fund Adjustment Account	(6,426)	-	-
Holiday pay transferred to the Accumulated Absences Reserve	(346)	-	-
Reversal of entries included in the Surplus or Deficit on the Provision of Services in relation to capital expenditure (these items are charged to the Capital Adjustment Account)	(283)	-	-
Total Adjustments to Revenue Resources	(65,247)	-	-
Adjustments between Revenue and Capital Resources			
Transfer of non-current asset sale proceeds from revenue to the Capital Receipts Reserve	-	-	-
Statutory provision for the repayment of debt (transfer from the Capital Adjustment Account)	937	-	-
Capital expenditure financed from revenue balances (transfer to the Capital Adjustment Account)	2,304	-	-
Total Adjustments between Revenue and Capital Resources	3,241	-	-
Adjustments to Capital Resources			
Use of the Capital Receipts Reserve to finance capital expenditure	-	-	-
Application of capital grants to finance capital expenditure	-	-	-
Total Adjustments to Capital Resources	-	-	-
Total Adjustments	(62,006)	-	-

2021/2022	Usable Reserves		
	General Fund Balance	Capital Receipts Reserve	Capital Grants Unapplied
Adjustments to Revenue Resources	£000	£000	£000
Amounts by which income and expenditure included in the CIES are different from revenue for the year calculated in accordance with statutory requirements:			
Pension costs transferred to/(from) the Pensions Reserve	(59,966)	-	-
Council tax and NDR transfers to/(from) Collection Fund Adjustment Account	3,986	-	-
Holiday pay transferred to the Accumulated Absences Reserve	(42)	-	-
Reversal of entries included in the Surplus or Deficit on the Provision of Services in relation to capital expenditure (these items are charged to the Capital Adjustment Account)	(858)	-	-
Total Adjustments to Revenue Resources	(56,880)	-	-
Adjustments between Revenue and Capital Resources			
Transfer of non-current asset sale proceeds from revenue to the Capital Receipts Reserve	-	-	-
Statutory provision for the repayment of debt (transfer from the Capital Adjustment Account)	995	-	-
Capital expenditure financed from revenue balances (transfer to the Capital Adjustment Account)	3,189	-	-
Total Adjustments between Revenue and Capital Resources	4,184	-	-
Adjustments to Capital Resources			
Use of the Capital Receipts Reserve to finance capital expenditure	-	-	-
Application of capital grants to finance capital expenditure	-	-	-
Total Adjustments to Capital Resources	-	-	-
Total Adjustments	(52,696)	-	-

11. MOVEMENTS IN EARMARKED RESERVES

This note sets out the amounts set aside within the General Fund Balance for earmarked reserves to provide financing for future expenditure plans and the amounts posted back from earmarked reserves to meet General Fund expenditure in both 2020/21 and 2021/22.

General Fund:	Balance at 31 March 2020 R £000	Transfers out 2020/21 R £000	Transfers in 2020/21 R £000	Balance at 31 March 2021 R £000	Transfers out 2021/22 £000	Transfers in 2021/22 £000	Balance at 31 March 2022 £000

12. UNUSABLE RESERVES

31 March 2021 £000		31 March 2022 £000
(42,072)	Revaluation Reserve	(58,661)
(66,523)	Capital Adjustment Account	(70,686)
1,871,451	Pensions Reserve	1,844,935
6,189	Collection Fund Adjustment Account	2,203
1,487	Accumulated Absences Account	1,529
1,770,532	Total Unusable Reserves	1,719,320

12.1 Revaluation Reserve

The Revaluation Reserve contains the gains made by the Authority arising from increases in the value of its property, vehicles, plant, and intangible assets. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost,
- used in the provision of services and the gains are consumed through depreciation, or
- disposed of and the gains are realised.

2020/2021 £000		2021/2022 £000
(45,321)	Balance 1 April	(42,072)
(8,391)	Upward revaluation of assets	(21,636)
10,768	Downward revaluation of assets and impairment losses not charged to the Surplus/Deficit on the Provision of Services	4,210
(42,944)	Surplus or deficit on revaluation of non-current assets not posted to the Surplus or Deficit on the Provision of Services	(59,498)
872	Amount written off to the Capital Adjustment Account	837
(42,072)	Balance 31 March	(58,661)

12.2 Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or additions to those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or subsequent costs as depreciation, impairment losses and amortisations are charged to the CIES (with reconciling postings from the Revaluation Reserve to convert current and fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Authority as finance for the costs of acquisition, construction and subsequent costs.

The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Authority.

The note below provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

2020/2021 £000		2021/2022 £000
(62,693)	Balance 1 April	(66,523)
	Reversal of items relating to capital expenditure debited or credited to the CIES:	
3,876	Charges for depreciation and impairment of non-current assets	3,989
(3,642)	Revaluation losses on Property, Vehicles, Plant and current assets	(3,158)
31	Amortisation of intangible assets	27
18	Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the CIES	-
(62,410)		(65,665)
(872)	Adjusting amounts written out of the Revaluation Reserve	(837)
(63,282)	Net written out amount of the cost of non-current assets consumed in the year	(66,502)
	Capital financing applied in the year:	
(937)	Statutory provision for the financing of capital investment charged against the General Fund	(995)
(2,304)	Capital expenditure charged against the General Fund	(3,189)
(66,523)	Balance 31 March	(70,686)

12.3 Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Authority accounts for post-employment benefits in the CIES as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Authority makes employer's contributions to the pension fund or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Authority has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

2020/2021 £000		2021/2022 £000
1,697,233	Balance 1 April	1,871,451
116,026	Re-measurements of the net defined benefit liability/(asset)	(86,482)
75,583	Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the CIES	77,522
(17,391)	Employer's pensions contributions and direct payments to pensioners payable in the year	(17,556)
1,871,451	Balance 31 March	1,844,935

12.4 Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of council tax and NDR in the CIES as it falls due from council tax payers and business rates payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

2020/2021 £000		2021/2022 £000
(237)	Balance 1 April	6,189
1,435	Amount by which council tax income credited to the CIES is different from council tax income calculated for the year in accordance with statutory requirements	(1,122)
4,991	Amount by which NDR income credited to the CIES is different from NDR income calculated for the year in accordance with statutory requirements	(2,864)
6,189	Balance 31 March	2,203

12.5 Accumulated Absences Account

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year, e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the Account.

2020/2021			2021/2022	
£000	£000		£000	£000

At 31 March 2022	142,520	7,265	2,062	2,501	154,348

16.3 Depreciation

The depreciation rates used in the table above are consistent with those described in the accounting policies statement.

16.4 Capital Commitments

As at the 31st March 2022, the Authority approved capital expenditure in future years of £17.239m of which £2.173m has been contractually committed leaving £15.066m as the uncommitted sum which relates to expenditure on property, plant and equipment.

The largest of these contractual commitments represents:

	£000
• Vehicle Replacements	1,791
• Roof Replacements	156

16.5 Revaluations

The Authority had all its property assets valued as at 31st March 2022 based on current value. The work was completed by qualified external valuers, WH&E. Valuations were carried out in accordance with the methodologies and bases for estimation set out in the Royal Institution of Chartered Surveyors (RICS) Professional Standards manual (The Red Book) and is International Valuation Standards compliant. The use of the manual means there is certainty with the valuation process.

Valuations of vehicles, plant, furniture and equipment are based on current prices where there is an active second-hand market or latest list prices adjusted for the condition of the asset.

17. INTANGIBLE ASSETS

The movement on Intangible Asset balances during 2020/21 and 2021/22 is as follows:

	2020/21 Other Assets £000	2021/22 Other Assets £000
Balance at start of year:		
Gross carrying amounts	797	797
Accumulated amortisation	(685)	(716)
Net carrying amount at end of year	112	81
Amortisation for the period	(31)	(27)
Net carrying amount at end of year	81	54
Comprising of:		
Gross carrying amounts	797	797
Accumulated amortisation	(716)	(743)
Net carrying amount at end of year	81	54

18. FINANCIAL INSTRUMENTS

18.1 Balance Sheet

Total financial liabilities	(31,535)	(30,707)	-	-	(2,256)	(904)	(4,494)	(5,006)	(38,285)	(36,617)
Liabilities not defined as financial instruments	-	-	-	-	-	-	(14,003)	(11,435)	(14,003)	(11,435)
Total	(31,535)	(30,707)	-	-	(2,256)	(904)	(18,497)	(16,441)	(52,288)	(48,052)

18.2 Income, Expense, Gains and Losses

	2020/21		2021/22	
	Surplus or Deficit on the Provision of Services £000	Other Comprehensive Income and Expenditure £000	Surplus or Deficit on the Provision of Services £000	Other Comprehensive Income and Expenditure £000
Amortised Cost:				
(Gains)/Losses on de-recognition	(70)	-	(34)	-
Interest revenue	(118)	-	(73)	-
Interest expense	1,830	-	1,681	-
Total	1,642	-	1,574	-

18.3 Loans Outstanding

The Authority has its own portfolio of loans payable directly to the PWLB. Loans are also outstanding to Dudley MBC, which represent the Authority's share of the outstanding loan debt of the WMCC abolished in 1986.

Under accounting requirements, the financial instruments shown in the balance sheet are shown at "amortised cost". This is the carrying amount and comprises the principal amount borrowed and adjusted for breakage costs or stepped interest loans (measured by an effective interest rate calculation) and includes accrued interest.

The amounts owing are as follows:

	2020/2021		2021/2022	
	Long-Term £000	Short-Term £000	Long-Term £000	Short-Term £000
PWLB	(29,653)	(1,772)	(29,231)	(422)
Dudley MBC	(1,882)	(369)	(1,476)	(405)
Total Principal Amount	(31,535)	(2,141)	(30,707)	(827)
Plus Accrued Interest	-	(115)	-	(77)
Total Amortised Cost	(31,535)	(2,256)	(30,707)	(904)

18.4 Fair Value Measurement

IFRS 13 requires that local authorities measure some of their financial instruments at fair value and to apply the relevant input levels of the fair value hierarchy that are detailed in 1.9.3 of the Authority's accounting policies.

18.4.1 Fair Value of Assets and Liabilities at Amortised Costs

Except for the financial liabilities and financial assets carried at fair value, all other financial liabilities and financial assets held by the authority are carried in the balance sheet at amortised cost. Their fair value can be assessed by calculating the present value of cash flows that will take place over the remaining life of the instruments, using the following assumptions:

- Actual ranges of interest rates at 31st March 2022 of 8.625% to 3.95% for loans from the PWLB;
- No early repayment or impairment is recognised;
- Where an instrument has a maturity of less than twelve months, the fair value is taken to be the principal outstanding or the billed amount.
- The fair value of trade and other receivables is taken to be the invoiced or billed amount.

18.4.2 Financial Liabilities

The fair values are as follows:

	2020/2021		2021/2022	
	Carry Amount £000	Fair Value £000	Carry Amount £000	Fair Value £000
PWLB Short & Long Term Loans	(31,425)	(57,239)	(29,653)	(51,739)
Dudley MBC (WMCC)	(2,251)	(2,251)	(1,881)	(1,881)
Total	(33,676)	(59,490)	(31,534)	(53,620)

Overall, the fair value for 2021/2022 is greater than the carrying amount because the Authority's portfolio of loans includes several fixed rate loans where the interest rate payable is higher than the rates available for similar loans in the market at the balance sheet date.

The fair values for the financial liabilities have been determined by for loans from the PWLB, Link Asset Services provide fair value estimates using both redemption and new borrowing (certainty rate) discount rates. The fair value of WMCC debt is taken to be the same as the amount of principal outstanding.

18.4.3 Financial Assets

The carrying amount and the fair value of the Authority's financial assets are the same due to the short term nature of the transactions.

18.4.4 Fair Value Hierarchy for Financial Assets and Financial Liabilities

The fair value for financial liabilities and financial assets that are not measured at fair value included in Levels 2 in the table below have been arrived at using a discounted cash flow analysis with the most significant inputs being the discount rate.

	Quoted prices in active markets for identical assets (Level 1) £000	Other significant observable inputs (Level 2) £000	Significant unobservable inputs (Level 3) £000	TOTAL 31 March 2021 £000

18.5 Nature and extent of risks arising from Financial Instruments

The Authority's activities expose it to a variety of financial risks:

Credit risk – the possibility that other parties might fail to pay amounts due to the Authority.

Liquidity risk – the possibility that the Authority might not have the funds available to meet its commitments to make payments.

Market risk – the possibility that financial loss might arise for the Authority because of changes in such measurements as interest rates.

18.5.1 Credit risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Authority's customers.

The Authority does not generally allow credit for customers, such that £0.679m of the £18.949m Debtors balance is past its due date for payment. The past due amount can be analysed by age as follows:

	31 March 2021 £000	31 March 2022 £000
Less than three months	571	467
Three to six months	6	125
Six months to one year	19	20
More than one year	18	67
Total	614	679

18.5.2 Liquidity risk

As the Authority has ready access to borrowings, there is no significant risk that it will be unable to raise finance to meet its commitments under financial instruments.

All trade and other payables are due to be paid in less than one year.

18.5.3 Market risk

The Authority is exposed to risk in terms of its exposure to interest rate movements on its borrowings and investments.

During 2021/22, if interest rates on investments had been 0.1% lower with all other variables held constant, the impact on the CIES would be a fall in interest received of £45k (2020/2021 £48k). The impact of a 0.1% increase in interest rates would be the same but reversed, interest would increase by £45k (2020/2021 £48k).

The Authority's borrowing is at fixed rates, therefore there is little flexibility for any movement and impact on the CIES.

19. INVENTORIES

	General Stores		Mechanical Stocks		Heating Oil Petrol/ Diesel		Total	
	2020/21 £000	2021/22 £000	2020/21 £000	2021/22 £000	2020/21 £000	2021/22 £000	2020/21 £000	2021/22 £000
Balance outstanding at start of year	441	722	162	160	86	101	689	983

910	Prepayments	1,153
155	Sandwell MBC - VAT	342
19,716	Total Other Debtors	17,550
20,892	Total Debtors	18,949

The past due but not impaired amount for local taxation (council tax and non-domestic rates) can be analysed by age as follows:

	31 March 2021 £000	31 March 2022 £000
Less than one year	2,677	2,656
One to two years	1,227	1,414
Two to six years	1,421	1,816
More than six years	138	480
Total	5,463	6,366

21. CASH AND CASH EQUIVALENTS

The balance of Cash and Cash Equivalents is made up of the following elements:

31 March 2021 £000		31 March 2022 £000
10	Cash held by the Authority	10
(138)	Bank current account	(601)
36,742	Bank call account	33,455
36,614	Total Cash and Cash Equivalents	32,864

22. CREDITORS

31 March 2021 £000		31 March 2022 £000
	Creditors – Revenue	
	Financial Instruments	
(3,455)	Other entities and individuals	(4,619)

(11,678)	Collection fund	(8,821)
(2,217)	Her Majesty's Revenue and Customs	(2,538)
(108)	Deferred income	(76)
(14,003)	Total Other Creditors	(11,435)
(17,932)	Total Creditors - Revenue	(16,301)
	Creditors – Capital	
	Financial Instruments	
(565)	Other entities and individuals	(140)
(565)	Total Creditors – Capital	(140)
(18,497)	Total Creditors	(16,441)

23. PROVISIONS

An insurance provision of (£0.664m) has been provided for previous years' employee and public liability claims, it is held in line with recommendations of the actuarial valuation. Whilst the Actuary can give advice about the total value of claims they are not able to confirm when these will be submitted.

24. CASH FLOW STATEMENT – OPERATING ACTIVITIES

24.1 The cash flows for operating activities include the following items:

2020/2021 £000		2021/2022 £000
(426)	Interest received	(118)
1,865	Interest paid	1,720

24.2 The surplus or deficit on the provision of services has been adjusted for the following non-cash movements:

2020/2021 £000		2021/2022 £000
(3,876)	Depreciation	(3,989)
3,642	Impairment and downward valuations	3,158
(31)	Amortisation	(27)
(11)	(Increase)/decrease in impairment for doubtful debts	(44)
(4,408)	(Increase)/decrease in Creditors	1,669
6,243	Increase/(decrease) in Debtors	(1,898)
294	Increase/(decrease) in Inventories	(50)
(52,943)	Movement in pension liability	(62,601)
(18)	Carrying amount of non-current assets and non-current assets held for sale, sold or de-recognised	-
(51,108)	Net cash (inflows)/outflows from adjustments to net surplus or deficit on the provision of services for non-cash movements	(63,782)

- 24.3** The surplus or deficit on the provision of services has been adjusted for the following items that are investing and financing activities:

2020/2021 £000		2021/2022 £000
77	Proceeds from the sale of property, vehicles, plant and equipment, investment property and intangible assets	34
77	Net cash (inflows)/outflows from adjustments for items included in the net surplus or deficit on the provision of services that are investing and financing activities	34

25. CASH FLOW STATEMENT - INVESTING ACTIVITIES

2020/2021 £000		2021/2022 £000
2,358	Purchase of property, vehicles, plant and equipment, investment property and intangible assets	3,615
(77)	Proceeds from the sale of property, vehicles, plant and equipment, investment property and intangible assets	(34)
2,281	Net cash (inflows)/outflows from investing activities	3,581

26. CASH FLOW STATEMENT - FINANCING ACTIVITIES

2020/2021 £000		2021/2022 £000
2,022	Repayments of short and long term borrowing	2,140

27. RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES

	31 March 2020 £000	Financing cash flows £000	Non-cash changes £000	31 March 2021 £000
Long term borrowings	(33,675)	-	2,140	(31,535)

Total liabilities from financing activities	(33,791)	2,140	40	(31,611)

28. OFFICERS' REMUNERATION

The remuneration paid to the Authority's senior employees is as follows:

Total (Including pension) 2020/2021 £		Salary £	Expenses Allowances £	Total (excluding pension) £	Pension £	Total (including pension) 2021/2022 £
	Senior Officer whose salary is £150,000 or more per year:					
246,630	CFO – Phil Loach	184,961	1,339	186,300	67,556	253,856
	Senior Officers' whose salary is less than £150,000 but equal or more than £50,000 per year:					
188,782	Deputy CFO – Community Risk Reduction Programme Executive	148,195	1,339	149,534	41,793	191,327
186,713	Assistant CFO – Enabling Services Programme Executive	141,894	1,598	143,492	39,201	182,693
174,271	Former Assistant CFO – People Programme Executive (Note 1)	114,926	1,004	115,930	29,437	145,367
-	Assistant CFO – People Programme Executive (Temporary - Note 2)	102,211	1,339	103,550	23,734	127,284
129,378	Strategic Enabler of Finance and Resources	109,711		109,711	21,953	131,664
101,138	Strategic Enabler Portfolio	83,606	1,339	84,945	23,573	108,518
74,699	Strategic Enabler Governance and Strategy	67,420		67,420	13,439	80,859
1,101,611		952,924	7,958	960,882	260,686	1,221,568

Note 1 – Former Assistant CFO People Programme Executive retired on 31 December 2021.

Note 2 – Temporary promotion to Assistant CFO People Programme Executive 6 December 2021. 2020/2021 comparatives for this officer are shown in the table below.

Ref. AU/A&R/2023/Mar/10703235

The Authority's other employees receiving more than £50,000 remuneration for the year (excluding employer's pension contributions) were paid the following amounts:

Remuneration band	2020/21 Number of employees	2021/22 Number of employees
£ 50,000 to £ 54,999	42	51
£ 55,000 to £ 59,999	37	49
£ 60,000 to £ 64,999	10	15
£ 65,000 to £ 69,999	16	16
£ 70,000 to £ 74,999	2	4
£ 75,000 to £ 79,999	1	2
£ 80,000 to £ 84,999	3	5
£ 85,000 to £ 89,999	1	1
Total	112	143

The table above excludes the senior officers who are reported separately except for 2020/2021 comparatives which include the Assistant CFO People Programme Executive former position.

The numbers of exit packages with total cost per band and total cost of the compulsory and other redundancies are set out in the table below:

(a)	(b)		(c)		(d)		(e)	
Exit package cost band (including special payments)	Number of compulsory redundancies		Number of other departures agreed		Total number of exit packages by cost band [(b) +(c)]		Total cost of exit packages in each band £	
	2020/21	2021/22	2020/21	2021/22	2020/21	2021/22	2020/21	2021/22
£0 - £20,000	-	-	-	-	-	-	-	-
£20,001 - £40,000	-	-	-	-	-	-	-	-
£40,001 - £60,000	1	-	-	-	1	-	50,002	-
£60,001 - £80,000	-	-	-	-	-	-	-	-
£80,001 - £100,000	-	-	-	-	-	-	-	-
£100,001 - £150,000	-	1	-	-	-	1	-	141,234
£150,001 - £200,000	-	-	-	1	-	1	-	194,277
Total	1	1	-	1	1	2	50,002	335,511

The Authority agreed to terminate the contract of two employees in 2021/22, incurring costs of £336k (£50k in 2020/21).

The total cost of £336k in the table above includes £141k for an exit package that has been agreed, accrued for and charged to the CIES in 2021/22.

29. MEMBERS' ALLOWANCES

The Authority paid the following amounts to Members of the Authority as allowances incurred during the year:

2020/2021 £000		2021/2022 £000
168	Allowances	166
168	Total	166

30. EXTERNAL AUDIT COSTS

Fees payable to the external auditor:

2020/2021 £000			2021/2022 £000
45	Grant Thornton UK LLP	Fees payable for the external planned audit work	32
10	Grant Thornton UK LLP	Additional audit fees	22
55		Total	54

31. RELATED PARTIES

The Authority is required to disclose material transactions with related parties - bodies or individuals that have the potential to control or influence the Authority or to be controlled or influenced by the Authority. Disclosure of these transactions allows readers to assess the extent to which the Authority might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Authority.

Letters have been sent to Brigade Managers, Statutory Officers and current and former Councillors asking them to identify whether they have any relationships with related parties. No members' of the Authority or Chief Officer or parties related to them have undertaken any disclosable related party transactions during the year.

The following material transactions with related parties took place during the year:

2020/2021 £000	Related Party	Nature of Transaction	2021/2022 £000
30,430	Central Government	Business Rates Retention Scheme Grants	28,446
19,164		Revenue Support Grant	19,270
5,713		Pensions Grant	5,713
4,819		Covid-19 Grants	1,698
43,516	West Midland Local Authorities	Council Tax Income	45,902
5,099		NDR Income	8,171

Grants received are set out in Note 32.

32. GRANT INCOME

32.1 The Authority credited the following grants, contributions and donations to the CIES in 2021/2022:

	2020/2021 £000	2021/2022 £000
<i>Credited to Taxation and Non Specific Grant Income:</i>		
Business rates retention scheme grants	30,430	28,446
Revenue support grant	19,164	19,270
Covid-19 Emergency funding grant	4,037	375
Covid-19 Local council tax support grant	-	1,419
Covid-19 Local tax income guarantee grant	624	(111)
Covid-19 Sales, fees and charges grant	158	15
Total	54,413	49,414
<i>Credited to Services:</i>		
Pensions grant	5,713	5,713
New dimension training crewing and accommodation	877	878
Fire protection board BRR and protection uplift funding	573	426
Home Office Grenfell infrastructure	328	-
Fire revenue firelink (Airwave new burden)	323	247
Fire reduction partnership	139	242
Home Office pension administration	124	124
Apprenticeship levy	122	122
ESMCP contingency	87	-
National resilience	78	80
Home Office protection board officers accreditation	70	-
ESMCP regional team expenses	68	-
New risks Section 29	29	55
DWP access to work	4	18
Redmond review	-	16
New burdens	8	8
Total	8,543	7,929

33. CAPITAL EXPENDITURE AND CAPITAL FINANCING

The total amount of capital expenditure incurred in the year is shown in the table below, together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Authority, the expenditure results in an increase in the CFR, a measure of the capital expenditure incurred historically by the Authority that has yet to be financed. The movement in the CFR is analysed in the second part of this note.

	2020/2021 £000	2021/2022 £000
<i>Opening CFR</i>	36,259	35,322
Capital investment:		
Property, Vehicles, Plant and Equipment	2,304	3,189
Sums set aside from revenue:		
Direct Revenue Contributions	(2,304)	(3,189)
MRP/the Statutory Repayment of Loans Fund Advances	(937)	(995)
<i>Closing CFR</i>	35,322	34,327

	2020/2021 £000	2021/2022 £000
<i>Movements in year</i>		
MRP/the Statutory Repayment of Loans Fund Advances	(937)	(995)
<i>Increase/(decrease) in CFR</i>	(937)	(995)

34. DEFINED BENEFIT PENSION SCHEMES

34.1 Participation in Pension Schemes

As part of the terms and conditions of employment of its officers, the Authority makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Authority has a commitment to make the payments (for those benefits) and to disclose them at the time that employees earn their future entitlement.

At the 31st March 2022 the Authority participated in four post-employment schemes:

- The WMMAPF for civilian and fire control employees, administered locally by City of Wolverhampton Council — this is a funded defined benefit final salary scheme, meaning that the Authority and employees pay contributions into a fund, calculated at a level intended to balance the pension's liabilities with investment assets.
- The 1992, 2006 and 2015 FPS for fire officers — these are unfunded defined benefit arrangements, there are no investment assets built up to meet the pensions liabilities. Fund Accounts have been set up, into which the Authority and scheme members make contributions and pension payments are made from the fund.

34.2 Transactions Relating to Post-employment Benefits

We recognise the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge we are required to make against council tax is based on the cash payable in the year, so the real cost of post-employment/retirement benefits is reversed out of the General Fund via the MIRS. The following transactions have been made in the CIES and the General Fund Balance via the MIRS during the year:

2020/2021	LGPS £000	Firefighters				Total £000
		Pension Scheme 1992 £000	Pension Scheme 2006 £000	Pension Scheme 2015 £000	Compensation Scheme £000	
CIES						
<i>Cost of services:</i>

34.6 LGPS assets comprised:

Asset category	31 March 2021 £000	%	31 March 2022 £000	%
Equities	74,836	60	80,974	61
Gilts	10,342	8	8,264	6
Other bonds	7,881	6	7,767	6
Property	9,324	8	9,576	7
Cash	6,075	5	5,243	4
Other	15,793	13	21,696	16
Total Assets	124,251	100	133,520	100

34.7 Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc. The FPS have been assessed using an approach and model supplied by GAD and certified by them on 19 May 2022. The WMMAPF has been based on triennial actuarial valuations, the last review being 31 March 2019 and assessed by Hymans Robertson. In calculating the IAS19 figures for the WMMAPF the actuary assumed an investment return of 9.4%.

The significant assumptions used by the actuary have been:

	LGPS		FPS	
	2020/2021	2021/2022	2020/2021	2021/2022
Mortality assumptions:				
Longevity at 65 for current pensioners:				
• Males	21.6	21.2	21.4	21.5
• Females	23.9	23.6	21.4	21.5
Longevity at 65 for future pensioners:				
• Males	23.4	22.9	23.1	23.2
• Females	25.8	25.4	23.1	23.2
Rate of inflation CPI	2.85%	3.2%	2.4%	3.0%
Rate of increase in salaries	3.85%	4.2%	4.15%	4.75%
Rate of increase in pensions	2.85%	3.2%	2.4%	3.0%
Rate for discounting scheme liabilities	2.0%	2.7%	2.0%	2.65%

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The assumptions in longevity, for example, assume that life expectancy increases or decreases for men and women. In practice, this is unlikely to occur and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the schemes i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

A sensitivity analysis for the WMMAPF as at 31 March 2022 is shown below:

Change in assumptions:	Approximate increase to defined benefit obligation	
	%	£000
0.1% decrease in real discount rate	2%	(3,487)
1 year increase in member life expectancy	4%	(7,400)
0.1% increase in the salary increase rate	0%	(489)
0.1% increase in the pension increase rate (CPI)	2%	(2,967)

The tables below show the sensitivity of the defined benefit obligation to changes in the significant actuarial assumptions and the impact on the total liability as at 31 March 2022 for the FPS:

FPS 1992 Change in assumption*	Approximate % increase to Employer liability	Approximate effect on total liability £m
0.5% increase in real discount rate	-8.0%	122
0.5% increase in long term salaries rate	0.5%	(10)
0.5% increase in the pensions increase rate	7.5%	(109)
1 year increase in member life expectancy	3.5%	(54)

The weighted average duration of the defined benefit obligation for scheme members is approximately 18 years.

FPS 2006 Change in assumption*	Approximate % increase to Employer liability	Approximate effect on total liability £m
0.5% increase in real discount rate	-16%	13
0.5% increase in salaries rate	7.5%	(6)
0.5% increase in the pensions increase rate	10%	(8)
1 year increase in member life expectancy	3%	(3)

The weighted average duration of the defined benefit obligation for scheme members is approximately 36 years.

FPS 2015 Change in assumption*	Approximate % increase to Employer liability	Approximate effect on total liability £m
0.5% increase in real discount rate	-15.0%	26
0.5% increase in salaries rate	6.5%	(11)
0.5% increase in the pensions increase rate	9.5%	(17)
1 year increase in member life expectancy	3%	(5)

The weighted average duration of the defined benefit obligation for scheme members is approximately 33 years.

* Opposite changes in the assumptions will produce approximately equal and opposite changes in the liability.

34.8 Impact on the Authority's Cash Flows

The objective of the LGPS is to keep employers' contributions at as constant a rate as possible. The WMMAPF has agreed a strategy with the scheme's actuary to achieve a funding level of 100% by no more than 17 years with effect from the 2019 valuation.

The LGPS will need to take account of the national changes to the scheme under the Public Pensions Services Act 2013. Under the Act, the LGPS in England and Wales and the other main existing public service schemes may not provide benefits in relation to service after 31 March 2014. The Act provides for scheme regulations to be made within a common framework, to establish new career average revalued earnings scheme to pay pensions and other benefits to certain public servants.

The £7.9m payment to the WMMAPF in April 2020 for employer pension contributions for the LGPS, included payments for the 1st April 2020 to 31st March 2021 £2.66m, 1st April 2021 to 31st March 2022 £2.63m and 1st April 2022 to 31st March 2023 £2.61m.

Expected employers' contributions for the FPS in the year to 31 March 2023 are approximately £13m. On 28 February 2019, GAD published the final reports in relation to the 2016 valuation of the FPS. This included the scheme specific employer contribution rates for the period April 2019 to March 2023. Employer contribution rates increased significantly because of the valuation. To cover approximately 90% of the additional cost, a section 31 government grant of £5.7m was received in 2019/20. In a letter dated 6 February 2020, the Home Office confirmed that a section 31 government grant would be paid to the Authority at the same level in 2020/21 but gave no commitment for future years. The Authority received in May 2022 the same level of government grant of £5.7m for 2021/2022 and will receive this amount in 2022/2023.

35. CONTINGENT LIABILITIES

35.1 Municipal Mutual Insurance Limited (MMI)

MMI, through which the Authority had part of its insurance, ceased writing new insurance business in 1992 and is currently using its available resources to meet outstanding claims. MMI may not know the full extent of its liability claims as it may take several years for them to arise, however the Company has continued to settle claims in an orderly manner. To prevent the costs associated with an insolvent run off, the Company entered into a scheme of arrangement with its creditors. Following a Supreme Court judgement on 28th March 2012 which found against the Company, it is now highly likely that the scheme of arrangement will be triggered. Once the scheme is implemented, the Authority and others will be called upon to reimburse the company with a proportion (up to 100%) of its claims settled since 1st October 1993. The Contingent Liability is for approximately 50% (£2.060m). Payments of £0.402m (2013/14) & £0.268m (2016/17) have been made and an earmarked reserve is provided for £0.038m. The balance is held in the insurance earmarked reserve (£1.352m).

35.2 Public Service Pensions – Changes to the transitional arrangements to the 2015 schemes

From 1st April 2022 all employees will be moved into the reformed pension scheme. In the case of firefighters this will be the 2015 FPS. The estimated pension obligations from this matter have been captured within the defined pension liability. The shortfall in employer contributions will be captured in future scheme valuations as an unfunded, past service deficit and reflected in the employer contribution rates going forward.

The Authority is aware of the lodging of the “injury to feelings” claim concerning the transitional arrangements that were put in place when the 2015 FPS came into effect on 1 April 2015. The claim seeks compensation for individual claimants in respect of non-financial damage. If the claim is successful it is possible that the Authority may be liable to make compensation payments. At this stage the value and quantum of any impact is unknown.

NOTES TO THE PENSION FUND ACCOUNT

The fund was established at 1st April 2006 under the FPS (Amendment) England Order 2006 and covered both the 1992 and 2006 FPS. From 1st April 2015, a new FPS and a modified section in the 2006 scheme was established. The fund now includes the 1992, 2006 and 2015 schemes. Before 1st April 2006 the Authority was responsible for paying the pensions of its own former employees on a pay as you go basis. The FPS remain unfunded and consequently the fund has no investment assets. Benefits are funded by contributions from the Authority and employees and any difference between benefits payable and contributions receivable is met by top-up grant from the Home Office.

Government funding by top-up grant is paid in two instalments, 80% of the estimated annual amount is received in August of the relevant year with the balance paid once actual figures have been determined.

Employees' and employer's contribution levels are based on percentages of pensionable pay set nationally by the Government and are subject to revaluation every four years' by GAD. The contribution rates for 2021/22 are shown in the tables below:

	1992 Scheme %	2006 Scheme %	Modified %
Employer's	37.3	27.4	37.3
Employees' Pensionable pay band			
Up to £15,609	11.0	8.5	11.0
> £15,609 to £21,852	12.2	9.4	12.2
> £21,852 to £31,218	14.2	10.4	14.2
> £31,218 to £41,624	14.7	10.9	14.7
> £41,624 to £52,030	15.2	11.2	15.2

> £62,436 to £104,060	16.0	11.7	16.0
> £104,060 to £124,872	16.5	12.1	16.5
> £124,872	17.0	12.5	17.0

	2015 Scheme %
Employer's	28.8
Employees' Pensionable pay band	
Up to £27,818	11.0
£27,819 to £51,515	12.9
£51,516 to £142,500	13.5
£142,501 or more	14.5

The fund is administered by the Authority and managed by the Strategic Enabler of Finance and Resources. Benefits are paid to retired officers, their survivors and others who are eligible for benefits under both the 1992, 2006 and 2015 FPS.

The fund is statutorily prevented from including interest on cashflows and administration expenses in the pension fund. These expenses are borne by the Authority in its main accounts.

The Net Assets Statement does not include liabilities to pay pensions and other benefits after the 31st March 2022. For further information on the liability to pay pensions see Note 34.

The account is prepared in accordance with the same code of practice and accounting policies as outlined in the Statement of Accounting Policies, with one exception that accounting for transfer values are on a cash basis rather than accruals basis.

ANNUAL GOVERNANCE STATEMENT

1. Scope of Responsibility

- 1.1 West Midlands Fire and Rescue Authority is responsible for ensuring that its business is conducted in accordance with the law and proper standards, that public money is safeguarded and properly accounted for. The Authority also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.
- 1.2 In discharging this duty, the Authority is also responsible for putting in place proper arrangements for the governance of its affairs which facilitates the effective exercise of the Authority's functions and which includes arrangements for the management of risk.
- 1.3 The Authority has complied with the code of corporate governance which is consistent with the principles of the revised CIPFA/SOLACE Framework 2016 published by CIPFA in association with the International Federation of Accountants (IFAC) – Delivering Good Governance in Local Government. The Authority has also complied with the requirements of CIPFA's statement on the role of the Chief Financial Officer in Local Government. This Annual Governance Statement explains how the Authority has complied with the code and also meets the requirements of Accounts and Audit (England) Regulations 2015, regulation 6 which require the Authority to prepare an Annual Governance Statement.

2. The Purpose of the Governance Framework

- 2.1 The governance framework comprises the systems and processes, culture and values by which the Authority is directed and controlled and its activities through which it accounts to and engages with the community. It enables the Authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, value for money services.
- 2.2 The system of internal control is a significant part of the framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can, therefore, only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the Authority's policies, aims and objectives, to evaluate the likelihood and potential impact of those risks being realised and the impact should they be realised and to manage them efficiently, effectively and economically.
- 2.3 The governance framework has been in place for the year ended 31st March 2022 and up to the date of the approval of the annual report and statement of accounts.

3. The Governance Framework

The key elements of the systems and processes that comprise the Authority's governance arrangements include the following (adjustments required due to the COVID-19 pandemic are reflected in paragraph 5.11):-

- 3.1 The Authority has produced a Corporate Strategy setting out its objectives and there is regular performance monitoring in which achievement of the Authority's objectives is measured and monitored.
- 3.2 The Authority has established clear channels of communication with the community and stakeholders regarding the production of the Annual Report and consultation on the key priorities of the Service. This also encourages open communication.
- 3.3 The Authority facilitates policy and decision-making via regular Policy Planning Forums and Authority meetings. An Audit and Risk Committee provides independent assurance to the Authority on risk management and internal control and the effectiveness of the arrangements the Authority has for these matters. The constitution of the Committees including the terms of reference is reviewed annually and available on the Internet.
- 3.4 The Authority ensures compliance with established strategies, procedures, laws and regulations – including risk management. The Authority also maintains and reviews regularly its code of conduct and whistle blowing policy. There is a comprehensive induction programme in place and information regarding strategies and procedures are held on the intranet, which continues to be developed. The Authority has a strong Internal Audit function and established protocols for working with External Audit.
- 3.5 West Midlands Fire and Rescue Authority will continue to enhance and strengthen its internal control environment through the review of current policies and procedures.
- 3.6 The Authority has corporate risk management arrangements in place which are supported by an approved Risk Management Strategy enabling Managers and other senior officers to identify, assess and prioritise risks within their own work areas which impact on the ability of the Authority and its services to meet objectives. To consider the effectiveness of the Authority's risk management arrangements is a specific term of reference for the Audit and Risk Committee and risk management is a specific responsibility of both the Chair and Vice Chair.
- 3.7 The Authority's Corporate Risk Register identifies the principal risks to the achievement of the Authority's objectives and assesses the nature and extent of those risks (through assessment of likelihood and impact). The Register identifies risk owners whose responsibility includes the identification of controls and actions to manage them efficiently, effectively and economically.

- 3.8 The Authority ensures the economical, effective and efficient use of resources, and secures continuous improvement in the way in which its functions are exercised, by having regard to a combination of economy, efficiency and effectiveness as required by the Best Value duty. The Authority plans its spending on an established planning cycle for policy development, budget setting and performance management through the business planning process. This ensures that resources are aligned to priorities and secures best value from the resources that are available.
- 3.9 The Chief Financial Officer is a key member of the leadership team, helping to develop and implement the Authority's strategy. The Authority's financial system is an ORACLE based general ledger and management information system, which integrates the general ledger function with those of budgetary control and payments. Financial Regulations and Contract Procedure Rules are approved and regularly reviewed by the Authority. A rigorous system of monthly financial monitoring ensures that any significant budget variances are identified in a timely way, and corrective action initiated.
- 3.10 The Authority's performance management and reporting of performance management continues to be improved with a more focused Corporate Strategy, the setting of priorities and is supported by regular performance monitoring. Corporate performance is reported on a quarterly basis and this process provides officers and Members with the opportunity to share knowledge and understanding about key performance issues affecting services.
- 3.11 The Authority within its committee framework has an Appointment, Standards and Appeals Committee to promote high ethical standards amongst Members. This Committee leads on developing policies and procedures to accompany the Code of Conduct for Members and is responsible for local assessment and review of complaints about members' conduct. The Authority also has a Scrutiny Committee which undertakes performance management functions, informs policy development and holds officer and the Authority to account.
- 3.12 The Fire and Rescue National Framework for England sets out a requirement for Fire and Rescue Authorities to publish 'Statements of Assurance'. Specifically, Fire and Rescue Authorities must provide assurance on financial, governance and operational matters and show how they have had due regard to the expectations set out in their integrated risk management plan and the requirements included in this Framework. The Authority has approved the Statement of Assurance which is available on the Service's website.

4. Review of Effectiveness

- 4.1 The Authority has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of effectiveness is informed by the work of the statutory officers and principal managers of the Authority who have responsibility for the development and maintenance of the governance environment, the internal audit annual report and comments made by the external auditor in their Auditor's Annual Report and other reports.
- 4.2 Section unit business plans contain a variety of performance indicators and targets that are regularly reviewed.
- 4.3 The Authority's political governance arrangements, which are appropriately reviewed by officers, set out the responsibilities of both Members and senior managers. In particular, the Authority has identified the following statutory post holders:-
- Chief Fire Officer
 - Treasurer
 - Monitoring Officer

In addition to the statutory posts, the post of Clerk to the Authority has been maintained.

- 4.4 The arrangements for the provision of internal audit are contained within the Authority's Financial Regulations. The Treasurer is responsible for ensuring that there is an adequate and effective system of internal audit of the Authority's accounting and other systems of internal control as required by the Accounts and Audit Regulations 2015. The internal audit provision operates in accordance with the CIPFA Code of Practice for Internal Audit in Local Government. The Authority's Audit Plan is prioritised by a combination of the key internal controls, assessment and review on the basis of risk and the Authority's corporate governance arrangements, including risk management. The work is further supplemented by reviews around the main financial systems, scheduled visits to Authority establishments and fraud investigations. Internal Audit leads on promoting a counter-fraud culture within the Authority.
- 4.5 The resulting Audit Plan is discussed and agreed with officers of the Strategic Enabling Team and the Audit and Risk Committee and shared with the Authority's external auditor. Meetings between the internal and external auditor ensure that duplication of effort is avoided. All Authority Audit reports include an assessment of the adequacy of internal control and prioritised action plans to address any areas needing improvement.

4.6 The Authority's review of the effectiveness of the system of internal control is informed by:-

- The work undertaken by Internal Audit during the year;
- The work undertaken by the external auditor reported in their annual audit;
- Other work undertaken by independent inspection bodies.

4.7 From the work undertaken by Internal Audit in 2021/2022 the Internal Audit has given a 'reasonable assurance' that the Authority has adequate and effective governance, risk management and internal control processes. This represents an unqualified opinion and the highest level of assurance available to Audit Services. In giving this opinion it is recognised that assurance can never be absolute. The most that internal audit can provide is reasonable assurance that there are no major weaknesses in the Authority's governance, risk management and control processes.

4.8 The Authority is able to confirm that its financial management arrangements conform to the governance requirements of the CIPFA Statement on the Role of the Chief Financial Officer in Local Government.

4.9 Audit Services have reported and advised on the implications of the result of the review of effectiveness of the governance framework by the sources noted above and that the arrangements continue to be regarded as fit for purpose in accordance with the Authority's governance framework. The areas to be specifically addressed are outlined in 5.5.

5. Significant governance arrangements within the Authority

5.1 West Midlands Fire & Rescue Authority has a legal duty to provide an efficient, safe and effective fire and rescue service. The key priorities are:-

- Prevention – Safer and healthier communities
- Protection – stronger business communities
- Response – dealing effectively with emergencies

5.2 These formed the basis of the Authority's Annual Plan 2021-24 which set out the outcomes and priorities based on the Community Risk Management Plan and Medium-Term Financial Plan. The five-minute attendance standard lies at the heart of the Service Delivery Model. The model shows how staff provide the core prevention, protection and response services to make the West Midlands safer, stronger and healthier.

5.3 Grant Thornton, the Authority's External Auditors, published the Audit Findings Report for its 2020/2021 audit work which reported an unqualified opinion on the financial statements. It also issued an unqualified value for money conclusion stating that the Authority had proper arrangements in all significant respects to ensure it delivered value for money in the use of resources.

5.4 Based on audit work undertaken during the year an Annual Internal Audit Report was presented to the Audit and Risk Committee on 6 June 2022, Audit work which was completed in 2021/2022 included:-

- Data Protection
- Fire Stations – Management of Fuel
- Environmental Protection Targets
- Workforce Planning
- Fixed Asset Accounting
- Accounts Payable
- Budgetary Control
- Accounts Receivable
- Governance
- Risk Management

5.5 As a result of these audits the following was identified as the main issue:-

Data Protection

A review was undertaken to provide assurance that the necessary safeguards were in place to ensure the appropriate use of personal and corporate information. Internal Audits review of five subject access requests (SARs) in order to ensure they had been processed within the designated timescales, highlighted that in three cases, there was no documentarian to enable the timescales to be confirmed.

Management of Fuel

A review was undertaken to provide assurance on compliance with established controls over ordering, receipt and dispensing of fuel at a sample of five stations. The review identified issues relating to:

- Examples were found of fuel orders being placed when the storage tanks were below the specified re-order level.
- Written records relating to fuel deliveries and issues were not always maintained in accordance with the relevant standing order and therefore, not all information was recorded and there were arithmetical errors in the fuel balance figures.
- The issues identified above do increase the risk that fuel levels are not accurately monitored.

Workforce Planning

Workforce planning is integral to the operation of the Fire Authority and the delivery of its strategic plan. The purpose of the review was to assess the adequacy of the workforce planning processes and to provide assurance on how well they were embedded within the Fire Authority. In general, the processes in place effectively support the Fire Authority in delivering its strategic plan. The review did identify two issues relating to:

A system of multiple spreadsheets is used to maintain and monitor the staffing establishment. It was identified that process notes had not been established to document the system to be followed to maintain and monitor the various spreadsheets. As such, there was a risk of inconsistencies in approach, or loss of knowledge should key staff be unavailable. They would also be a useful training aid for any new staff.

- The policies which formed part of the appraisal/performance management/appraisal framework had not been reviewed on a regular basis. It is acknowledged that these documents were currently under review by relevant officers, but there was no set timescale for completion.
- Due to issues experienced with the reporting functionality in respect of the new Oracle Fusion system, it had not been possible to produce and publish the performance indicators which are required to support the management of absence within the Fire Authority. As such, there is a risk that absences may not be effectively managed.

- 5.6 The issues outlined above, together with any other issues highlighted in the Annual Internal Audit Report have been raised with relevant managers and actions have been taken to achieve improvements.
- 5.7 In February 2021, the Secretary of State for the Ministry for Housing, Communities and Local Government (MHCLG), now the Department for Levelling Up, Housing and Communities (DLUHC) confirmed the Authority's funding settlement for 2021/22 at £53.002M, which was a one-year only settlement.
- 5.8 In December 2021, the Secretary of State for DLUHC announced the provisional settlement for 2022/23 at £53.590m, resulting in a funding increase of £0.588m (1.1%). In addition, it was indicated a new 'one-off' Services Grant would be distributed through the existing Settlement Funding Assessment formula amounting to approximately £2.3M for this Authority (additional national insurance contribution costs of approximately £650k are to be funded from this). The Government also proposed a general Council Tax referendum threshold of 2% for Fire and Rescue Authorities. However, for one year only (2022/23), for the Fire and Rescue Authorities in the lowest charging quartile, there would be flexibility to increase Band D precepts by £5.

- 5.9 The 2022/23 Local Government Finance Settlement was a one year only Settlement, rather than the anticipated three-year Comprehensive Spending Review period. Multi-year settlements are a more effective way of managing resources, aligned to longer term planning and this uncertainty needs to be factored into the Medium-Term Financial Strategy. Every 1% increase/reduction in core funding represents an increase/loss of circa £0.536m funding for the Authority.
- 5.10 In addition, there are ongoing budget uncertainties, particularly Firefighter pension related issues, that have significant funding implications but at this stage still remain unclear in terms of ongoing cost and whether those costs will need to be found by Fire and Rescue Authorities and/or by Government funding. Furthermore, the Service is likely to continue to be directly impacted to some degree by the effects of COVID during 2022/23 together with the linked requirement to invest in the health, safety and wellbeing of all staff. General supply chain issues and the 'cost of living' crisis are also likely to present budget pressures. Therefore, whilst the Government funding allocation in 2022/23 is higher in cash terms compared to 2021/22, a high level of caution still needs to be applied to future financial years as the funding position remains volatile for the Fire Sector.

5.11 Covid-19 Governance Impact 2021/22

Since March 2020, the Coronavirus pandemic resulted in two nationwide lockdowns and an emergency response, which had impacts on the Authority's "business as usual" during 2020/21 and 2021/22

During both municipal years the Authority invoked Decisions under Matters of Urgency (Section 17.1 Authority Standing Orders) enabling the continuity of decision making by the Chief Fire Officer and Chair of the Authority on items of strategic importance or reverted to hybrid meetings enabling decision making with immediate effect following expiry of temporary legislation (The Local Authorities (Coronavirus) (Flexibility of Local Authority Meetings) (England) Regulations 2020).

During the original phase of the COVID-19 pandemic commencing in March 2020, a Business Continuity Management Team (BCMT) was established which comprised the Strategic Leadership Team and was COVID-19 specific in activity. This was supported by a Business Continuity Planning Team (BCPT) which comprised a cohort of Middle Managers who project managed the response to the pandemic across the Service. This infrastructure continued throughout each response and recovery phase of the pandemic; both were stood down in April 2022 for COVID-19 purposes.

6. **Certification**

- 6.1 To the best of our knowledge, the governance arrangements, as outlined above have been effectively operating during the year with the exception of those areas identified as requiring improvement. We propose over the coming year to take steps to address the above matters to further enhance our governance arrangements. We are satisfied that these steps will address the need for improvements that were identified during the review of effectiveness and will monitor their implementation and operation as part of our annual review.

Greg Brackenridge
Chair
West Midlands Fire & Rescue Authority

Phil Loach
Chief Fire Officer

GLOSSARY OF TERMS

Accruals

Income and expenditure are recognised as they are earned or incurred, not as money is received or paid (see Debtors and Creditors).

Accumulated Absences Account

The estimated cost of any untaken employee benefits.

Balance Sheet

A statement of assets, liabilities and other balances at the end of an accounting period.

Capital Adjustment Account

The fundamental principal of capital accounting is that accounting for non-current assets is separated from accounting for their financing. This is one of two reserves that help to manage this separation. It provides a balancing mechanism between the different rates at which assets are depreciated and are financed through the capital controls system.

Capital Expenditure

Expenditure on the acquisition of a fixed asset, or expenditure which adds to, and not merely maintains the value of an existing fixed asset.

Capital Receipt

Money received from the disposal of land and other assets. Capital receipts can only be used to fund capital expenditure.

Chartered Institute of Public Finance and Accountancy (CIPFA)

The only leading professional accountancy body in the UK specialising in the public sector. It has responsibility for setting accounting standards for local government.

Code – code of practice on local authority accounting

The rules and regulations governing the information and layout of the financial reporting statement of the Authority.

Creditor

An amount owed by an authority for work done, goods received or services rendered but for which payment has not been made at the end of the year.

Current Assets

Items from which the Authority derives a benefit but which will be consumed or realised during the next accounting period, e.g. stocks, debtors, cash.

Current Liabilities

Amounts falling due for payment in the next accounting period.

Current Service Cost (Pensions)

The increase in the present value of a defined benefit scheme's liabilities expected to arise from employee service in the current period.

Debtor

A sum due to the Authority but not received at the financial year end.

Deferred Liability

Amounts owed to outside bodies to be paid in predetermined instalments over more than one accounting period; e.g. leasing charges.

Defined Benefit Pension Scheme

A scheme in which the rules specify the benefits to be paid and the scheme is financed accordingly.

Depreciation

The measure of the wearing out, consumption, or other reduction in the useful economic life of a fixed asset, whether arising from use, passage of time or obsolescence through technological or other changes.

Emoluments

These are payments received from employment, usually in the form of wages, salaries or fees.

Employee Benefits

This is the net cost of any untaken benefit e.g. annual leave at the end of the financial year. This figure is shown in the Provision for Accumulated Absences and Accumulated Absences Accounts. The difference between the amounts held on the two balance sheet dates represents the movement in the Comprehensive Income and Expenditure Account.

Fixed Asset

An item from which the Authority will derive a benefit over several accounting periods.

General Fund

The total services of the Authority, the net cost of which is met by Council Tax, NDR and Government Grants.

Government Grants

Assistance by government and inter-government agencies and similar bodies, whether local, national or international, in the form of cash or transfer of assets to an authority, in return for past or future compliance with certain conditions relating to the activities of the Authority.

Heritage Assets

Assets which are primarily held and maintained for knowledge and cultural purposes.

Impairment

A diminution in value of a fixed asset resulting from, inter alia, obsolescence or physical damage.

Interest Cost (Pensions)

For a defined benefit scheme, the expected increase during the period in the present value of the scheme liabilities because the benefits are one period closer to settlement.

International Financial Reporting Standards (IFRS)

The set of accounting standards that has been introduced across the private and public sector from 1st April 2010.

Inventories

The value of those items of raw materials and stores the Authority has procured to use on a continuing basis, but which are not used at the balance sheet date.

Liabilities

Amounts due to individuals or organisations which will have to be paid at some time in the future. Current liabilities are payable within one year of the balance sheet date.

Long term Borrowing

The total amounts borrowed from external lenders for capital purposes but not repaid at the balance sheet date.

Long term Debtors

Amounts due to the Authority to be paid in predetermined instalments over more than one accounting period; e.g. car loans to staff.

Materiality

An item is material if its omission, non-disclosure or mis-statement in financial statements could be expected to lead to a distortion of the view given by the financial statements.

Minimum Revenue Provision

An amount that is considered prudent which must be set aside from revenue as provision for the repayment of loan debt.

NDR

Rates which are levied on business properties.

Net Book Value

The amount at which non-current assets are included in the balance sheet, i.e. their historical cost or current value less the cumulative amounts provided for depreciation.

Net Realisable Value

The open market value of the asset in its existing use (or market value in the case of non-operational assets), less the expenses to be incurred in realising the asset.

Non Operational Assets

Non-current assets held by the Authority but not used or consumed in the delivery of services.

Operational Assets

Non-current assets held and occupied, used or consumed by the Authority in the delivery of services for which it has either a statutory or discretionary responsibility.

Past Service Cost (Pensions)

For a defined benefit scheme, the increase in the present value of the scheme liabilities related to employee service in the prior periods arising in the current period because of the introduction of, or improvement to, retirement benefits.

Payment in Advance

Amounts actually paid in a given accounting period prior to the period for which they were payable

Precept

The amount levied upon local authorities in the West Midlands by the Fire Authority.

Provisions

Amounts set aside to meet future liabilities arising from past events but the exact amount and date on which it will arise is uncertain.

Receipts in Advance

Amounts actually received in a given accounting period prior to the period for which they were receivable.

Related Party

The Authority is required to disclose material transactions with related parties, bodies or individuals that have the potential to control or influence the Authority or to be controlled or influenced by the Authority, related parties are deemed to include:

Central Government.

West Midlands Local Authorities.

Members of the Authority or parties related to them.

Chief Officer or parties related to them.

Reserves

Amounts set aside to meet future contingencies but whose use does not affect the Authority's net expenditure in a given year. Appropriations to and from reserves may not be made directly from the revenue account. This is a crucial distinction between provisions and reserves.

Revaluation Reserve

The fundamental principal of capital accounting is that accounting for non-current assets is separated from accounting for their financing. This is one of two reserves that help to manage this separation. It records unrealised revaluation gains arising (since 1st April 2007) from holding non-current assets.

Revenue Expenditure

Revenue Expenditure is money spent on the day-to-day running costs of providing services. It is usually of a constantly recurring nature and produces no permanent assets.

Revenue Support Grant (RSG)

A grant from central Government towards the cost of providing services.

Temporary Loans

This represents money borrowed for a period of less than one year

Useful Life

The period over which the Authority will derive benefits from the use of a fixed asset.
